

## INCOME TAX LAW IS NOW IN FORCE

First Returns Will Cover Income of Citizens from March 1st., 1913 to Dec. 31st.

### TAXES 425,000 CITIZENS

Estimate Indicates That the Tax Will Produce \$82,298,000 from the 425,000 Persons Who Are Taxed

### BILL WILL BE SIGNED NEXT WEEK

WASHINGTON, Sept. 27.—According to estimates today by treasury experts, 425,000 American citizens must keep such accurate account of their incomes this year that they will be able to report to the income tax collector next spring exactly how much they owe the government under the new income tax law.

So far as the taxable American is concerned the income tax law is now practically in force against him. While the tariff bill in which the law is embodied will not be signed until next week, the first returns do not have to be made to the internal revenue collectors before March 1, 1914. But when the returns are made they will cover the income of citizens from March 1, 1913, to December 31, and the first payment of tax will be for money received during this period.

Every single person (citizens or foreign residents) whose annual income exceeds \$2,000 and every married person with an income above \$4,000 is expected to report his or her receipts in detail to the government agents March 1 of each year. The estimate completed today indicates that the income tax will produce \$82,298,000 from the 425,000 persons taxed. To this will be added the \$25,000,000 or more produced by the present corporation tax which is continued as part of the law.

Income Tax Estimates.		
Incomes.	Number.	Total Tax.
\$3,000-5,000	126,000	\$ 630,000
5,000-10,000	178,000	3,340,000
10,000-15,000	53,000	3,240,000
15,000-20,000	24,500	3,185,000
20,000-25,000	10,500	2,100,000
25,000-30,000	21,000	9,660,000
30,000-35,000	6,100	6,832,000
35,000-40,000	2,400	4,776,000
40,000-50,000	2,500	13,775,000
50,000-100,000	350	8,805,500
100,000-1,000,000	350	13,453,500
1,000,000 or above	100	9,301,000

Totals ..... 425,000 \$2,298,000

### Officials Are Exempt.

President Wilson, the federal judges of the supreme and inferior courts now holding office and employees "of a state or any political subdivision thereof," are the only persons specifically exempted from the tax by the new law. The president and judges now in office were made exempt to escape any questions of the constitutionality of the law and their successors in office will be compelled to pay the tax.

The first burden of the tax payment rests with the individual citizen and his failure to report his income is punishable by a fine.

Two primary methods of collecting the tax are contained in the law. One is the individual return made by the citizen, the other the returns by corporations and other employers who pay their employees' taxes "at the source." Under the law, as it will be signed by President Wilson next week, every large company employing labor will be compelled to report any regular salaries it pays in excess of the \$3,500 figures and will pay the taxes for its employees and deduct the tax from their pay envelopes.

In figuring up his net income for the taxpayer, the American business man, after deducting \$3,000 for himself, or \$4,000 if married, will have the right to claim the following additional exemptions:

Necessary expenses of carrying on business, not including personal, living or family expenses.

Interest paid out on indebtedness.

National, state, county, school or municipal taxes paid within the year.

Trade losses or storm or fire losses, not covered by insurance.

Worthless debts charged off during the year.

A reasonable allowance for the depreciation of property.

Dividends from companies whose income has already been taxed.

Interest from state, municipal or government bonds.

It is a clear provision of the law, however, that the taxable person must make a return to the internal revenue collector for his entire "net income" and exemptions claimed under the law must be submitted to the federal officers for them to determine upon their reasonableness or legality.

The amount of the income tax as finally agreed upon follows:

From \$3,000 to \$20,000, one per cent; from \$20,000 to \$50,000, 2 per cent; \$50,000 to \$75,000, 3 per cent; \$75,000 to \$100,000, 4 per cent; \$100,000 to \$250,000, 5 per cent; \$250,000 to \$500,000, 6 per cent; above \$500,000, 7 per cent.

A single man with an income of \$25,000 for example would pay one per cent on \$17,000 and two per cent on \$5,000, a total tax of \$270.

If married the first tax of one per cent would apply to only \$16,000 of the income.

## BLOODSTAINED COLLAR MOST PROMISING CLEW

POLICE BELIEVE IT WAS DISCARDED BY SLAYER OF MRS. GAY

Body of Christian Scientist Practitioner Found in Her Office—Negro Suspect Arrested, Believed Insane by Officers.

LOS ANGELES, Cal., Sept. 27.—A bloodstained collar, found on a roof directly beneath the open office window of Mrs. Rebecca P. Gay, a Christian Scientist practitioner who was beaten to death with a piece of gas pipe some time last night, was the most promising clew that detectives detailed on the case possessed tonight. They believe it was discarded by the slayer of Mrs. Gay. Her body was found early this morning by the janitor of a large downtown building where she had an office.

Her forehead had been crushed as the body was lying face downward on the floor, covered by a number of religious papers and cards.

On top of the papers was a towel upon which other bloodstains, indicating that the murderer had tried to cleanse her blood from his hands before leaving the office. Seemingly, there was nothing missing from her office and detectives are at a loss for a reason for the murder.

A negro who gave the name of Robert Askew and said he once had been a chauffeur for the dead woman's divorced husband was taken into custody on suspicion tonight. The attention of police was attracted to him when he was seen bumping his head against a telephone pole. A closer observation disclosed the fact that his clothes contained bloodstains. The detectives who questioned the negro believe he is insane.

Mrs. C. Curry, who frequently had taken Christian Science treatment from Mrs. Gay, called at the police station tonight and identified the negro, Askew, as one she had seen in the murdered woman's office about 4:20 o'clock yesterday afternoon.

The police said the negro confessed the murder, but also confessed other crimes, which they knew he had not committed. The more the officers questioned, the more convinced they became that Askew was insane, but they said their belief did not remove him from suspicion.

The detectives formulated the theory tonight that Mrs. Gay had been stricken down while her head was bowed in prayer for some person who had pretended to seek treatment from her.

### CLERKS DROP SENATOR SHERMAN'S NAME FROM REGISTRATION BOOKS

Illinois Senator Becomes Indignant When He Learns of Mistake—Name Will Be Restored.

Springfield, Ill., Sept. 27.—When United States Senator L. Y. Sherman discovered today that his name had been dropped from the election registration books during his absence in Washington, he was very indignant. With the "suspect" notice in his possession he started on a personal investigation to learn why he had been disfranchised while he was attending to his senatorial duties in Washington.

It was learned that the election clerks in his precinct had made a mistake. This only enraged the senator the more and he condemned the clerks as either "incompetents" or "crooks."

The election board will restore the senator's name so he will not be deprived of his vote. His name should not have been erased as he registered as the law requires at the general registration last fall.

### GRAND JURY RETURNS TWENTY INDICTMENTS AGAINST O'CONNOR

Sixteen Charge Imprisoned Real Estate Broker With Forgery—To Be Arraigned Monday.

Joliet, Ill., Sept. 27.—Twenty indictments were returned today against James N. O'Connor, imprisoned real estate broker, by the Will county grand jury. Sixteen charge forgery and uttering, two larceny as bailee and embezzlement and two the operation of a confidence game. Some of the indictments contain as many as ten counts, there being seventy-two in all. There were thirty-six alleged forged notes totalling in value \$33,800.

According to State's Attorney Robert W. Martin there is a great deal of other paper of which he doubts the genuineness.

O'Connor will be arraigned Monday. Each of the indictments are for crimes carrying an indeterminate sentence of from one to fourteen years.

O'Connor's alleged victims total twenty-six. The broker gave himself up three weeks ago to Sheriff Thos. Stevenson.

### LOCOMOTIVES RELEASED.

Columbus, O., Sept. 27.—Seventeen of twenty-one locomotives of the Detroit, Toledo & Ironton railroad which were condemned by boiler inspectors yesterday were released today.

The tie-up of the engines yesterday resulted in temporary prostration of train movements between Springfield and Ironton.

## CHARGE FRAUDS IN TOWN LOTS SALE

THOS. SMART AND ELEVEN AGENTS ARE INDICTED

It is Alleged That the Defendants Sold 900 Town Lots, Misrepresenting Their Location and Which Upon Investigation Were Found to be in a Swamp.

ST. LOUIS, Sept. 27.—The federal grand jury here today returned an indictment charging Thomas H. Smart and eleven of his agents with wholesale frauds in the sale of New Jersey town lots. The technical charge is using the mails to defraud.

It is alleged in these indictments that the defendants sold 900 town lots, representing, it is charged, that they were near New York City and on the Pennsylvania railroad. Investigation, it is stated, showed that they were in a swamp. The lots sold at \$39 to \$59 each and it is charged the contract of sale guaranteed that the company represented by Smart would sell the lots for the purchaser by July 1, 1912, at not less than \$150 each. The indictment charges that none of the lots sold by Smart or his agents were re-sold by them.

The purchasers were led to believe, it is charged, that because of their influence they were given bargain prices in buying the lots as the agents desired to use their names for advertising purposes.

The indictment further charges that Smart bought 1,400 of the lots from the assets holding corporation for \$3.50 each. Each lot was 100 feet. In re-selling the lots to his victims, it is claimed, Smart represented that the properties were within the corporate limits of the town of Spotts Wood, population 800.

The purchasers on investigation claimed they found the lots to be under water, on a railroad other than the Pennsylvania and an hour and thirty-five minutes from New York instead of forty-five minutes, as represented. The prospectus also represented, it is charged, that there were fourteen tunnels between Spotts Wood Manor and New York, though in reality there are only six.

The eleven men indicted with Smart as agents are Ben H. Lange, L. N. Philipson, F. A. Chopin, Harry E. Davis, H. L. Graham, Fred Graham, Max A. Jacobs, Carter Jacobs, August Levy, E. W. Endle and C. C. May.

Among those who told the federal grand jury that they had been defrauded were Frank M. Lawless, Joplin, Mo.; George F. Bennett, Dr. L. W. Foster and Clarkson I. Moon, all of Indianapolis; Dr. Peter H. Spry, Collinsville, Ill.; Charles E. Horrell, Galesburg, Ill.; Fred Lindsey, Dunbar, Danville, Ill.; Fred Lindsey and A. J. Kohlmeier, Keokuk, Ia.

After the indictment was returned, Smart said:

"I do not believe the facts were presented to the grand jury. I saw most of this property before I purchased it and it was represented to me that the rest of the property was like that I saw."

Smart admitted that he had complaints because of some of the lots being low and said he was willing to exchange them for higher lots and still is willing to do so.

### TUG GATUN AGAIN PASSED THROUGH THE GATUN LOCKS

Admission of Water Into Culchra Cut Will Be on October 1 Five Days Earlier Than Originally Planned.

Panama, Sept. 27.—The Tug Gatun was again passed through the Gatun locks today, this time from Gatun Lake to the sea. The operation consumed a little more than an hour and a half, as compared with two hours yesterday.

The first large vessel that will be passed through the Gatun locks probably will be a canal dredger on October 9. The date for the admission of water into Culchra cut by means of Gatun Lake underneath Gamboa dike has been advanced to October 1, five days earlier than originally planned. This is due to the cleaning up of the cut earlier than had been expected.

ALLEGED HEAVY DAMAGES.

Joliet, Ill., Sept. 27.—Heavy damages from a blast exploded in the penitentiary stone quarry were alleged in a suit, evidence in which was heard today by Attorney General H. C. Blount.

The blast was set off for moving picture purposes. Seven thousand dollars are claimed for injury to property.

WILL ERECT BUILDING FOR HIGH SCHOOL TEACHERS.

Chicago, Sept. 27.—President James of the University of Illinois announced here today that the university had decided to erect at Urbana a building to cost \$129,000 for education of high school teachers. It will be known as a school of education and will attempt to provide high school teachers for the state.

AWARDED LARGE SUM.

Chicago, Sept. 27.—Edward Fertig whose arm and leg had been burnt off by electric wires while he was suspended in the air in view of scores of people, today won \$25,500 damages from the Sanitary District of Chicago. Fertig was saved from death by the burning of the wires, which dropped him to the ground.

The amount of damages is one of the largest ever given in Illinois in a similar case.

## MEXICANS FIRE ON AMERICAN TROOPS

Soldiers Patrolling International Border Near El Paso, Targets of Federal Cavalrymen

### NONE OF AMERICANS INJURED

Spectator States U. S. Troopers Returned Fire and Drove Mexicans to Cover—Army Officers Deny Shooting by Americans

### GEN. CARRANZA OPPOSES ELECTION

EL PASO, Texas, Sept. 27.—A detachment of United States Troop H., second cavalry, were fired upon late this afternoon by Mexican federal cavalrymen, the Americans being on duty patrolling the international border about 15 miles east of El Paso. None of the Americans were wounded. Two Texas Rangers who were nearby were also fired at by the Mexicans.

United States army officers stated tonight that the soldiers did not return the federal's fire although there were about forty shots fired at them.

### Drives Mexicans To Cover.

H. L. Rhodes who was nearby when the Mexicans began shooting stated that the American troopers did return fire and drove the Mexicans to cover. It is not known whether there were any of the Mexicans injured.

The American troops were at a patrol station on the border about two miles east of San Elizario when about thirty federal cavalrymen appeared on the Mexican side. The Mexicans were about two hundred yards from the troopers when the shooting began.

### Begin Investigation.

The United States troop headquarters at El Paso, Texas, were notified soon after the shooting and went to San Elizario to conduct an investigation. At Juarez tonight the federal authorities are also investigating the shooting.

The Mexican troopers who fired at the Americans composed a scouting party which was sent east from Juarez this morning. Late tonight the troops had not returned to their barracks at Juarez.

The border patrol in the vicinity of San Elizario has been doubled tonight.

### Carranza Opposes Election.

Douglas, Ariz., Sept. 27.—"I declare that whoever proclaims himself president of Mexico as the result of the elections Huerta promises in October will be considered a traitor to his country. If he falls into our hands he will be tried under the law of January 25, 1882 and the same treatment will be accorded to all who recognize him as president."

This declaration formed a part of a lengthy message received here today from General Carranza, the constitutionalist leader at Hermosillo.

The law to which Carranza's refers was that enacted by Benito Juarez. It provides that all traitors may be summarily executed without trial. Under it Maximilian was put to death.

"Our aim," continued Carranza's message, "is to exterminate Huerta and his entire following; of traitors and assassins and to give ourselves good patriots, which our country expects us to be. Peace in Mexico is impossible until one party or other has been exterminated."

### Gambosé Begins Campaign.

Medina City, Sept. 27.—Pedro Gambosé is losing no time in getting his campaign for the presidency underway. With only four weeks intervening before the election and relieved of his duties as minister he has plunged into the work of organization and has already laid plans for a campaign of speaking which probably will draw him personally into the field as a political orator.

### WE'RE "BEATING THEIR WAY."

Tuscaloosa, Ala., Sept. 27.—The three young men being held here in connection with the robbery Thursday night of the Alabama Great Southern passenger train were aboard that train "beating their way," according to Robert Vaughan, youngest of the trio.

Vaughan declared in an interview today that he and his companions lay on the roofs of cars. They were afraid to move when the hold-up occurred, though when the roof of the express car, on which he lay was shattered by the explosions which wrecked the safe, he said he crawled back and joined his companions on the roof of the baggage car.

### MERCHANTS ARRAIGNED

Kansas City, Mo., Sept. 27.—Eight commission merchants of this city were arraigned in the criminal court today charged with violation of the state pure food laws in selling rotten eggs. They were released on bond to appear for trial September 30.

### ORDERS RECOUNT OF SILVER

San Francisco, Sept. 27.—A recount of every sack of silver dollars stored in the United States mint here amounting to \$61,395,000 has been ordered by Superintendent of the Mint Shannahan, because of the discovery of thefts from some of the sacks. The loss thus far revealed, the superintendent says, amounts to but \$7.

## HAHN WINS DAMAGE SUIT AGAINST MRS. SCHELL

DECISION ADDS ANOTHER CHAPTER TO DISPUTE OVER BILL OF \$8.19

Former Tenant Who Withheld Sum From Rent for Repairs on House Awarded \$900—Dispute Caused One Death.

ST. LOUIS, Mo., Sept. 27.—The circuit court at Carlyle, Ill., today awarded \$900 damages against Mrs. Pauline Schell of St. Louis and her son in favor of Charles Hahn, Jr., of Carlyle, who had written another chapter in the story of litigation and death that has resulted from a dispute over a bill of \$8.19.

Charles Hahn, Jr., was a tenant of Mrs. Schell in Carlyle and held out from the rent the sum of \$8.19 which he said he spent in repairs on the house. Mrs. Schell brought suit to compel Hahn to vacate, but the latter won.

Then Carlyle Schell, son of Mrs. Schell, enlisted the aid of David Shade and Thomas Thalls and the three turned a stream of water on the house occupied by Hahn. Hahn came to the window, but the stream of water knocked him down. He picked up a shotgun and fired, inflicting a wound on Thalls from which he died.

Indictments were returned against Mrs. Schell, her son and David Shade. Mrs. Schell was acquitted, but the other two were convicted. Shade went to jail for six months, but Mrs. Schell paid a fine for her son and he escaped imprisonment.

Mrs. Schell not only lost the \$900 suit yesterday, but the father of Thalls has brought a suit against her on the ground that his son lost his life in illegal employment by the Schells.

### PROGRESSIVES IN CONVENTION

#### NOMINATE TWO CANDIDATES

Roosevelt's Plea That State Courts Be Recalled From Legalism to Humanity and Justice is Keynote of Speeches.

Rochester, N. Y., Sept. 27.—United States District Judge Learned Hand, a Progressive, and supreme court justice Samuel J. Brandeis, a progressive Democrat, today were nominated for chief judge and associate judge of the court of appeals, respectively by the Progressive state conference in session here upon recommendation of the Progressive state conference. Both are residents of New York City.

The plea of Colonel Roosevelt that the state courts be "recalled from legalism to humanity and justice" was the keynote of nominating speeches.

The platform adopted by the conference re-affirms the principles enunciated in the national and state platforms of 1912 and deals at length with "renewed disclosures with respect to the misconduct of state officers, the mismanagement of our finances and public works."

Of the high court of impeachment the platform says:

"Much of the evidence was a familiar detail to Tammany leaders long before the impeachment proceeding was thought of. To the Tammany mind it was not at that time immoral. It became immoral only when the newly elected governor proposed to carry out his party's platform and aid in the writing of a genuine direct primary law upon the statute books and when investigation by the governor began to disclose great frauds. The responsibility for the shame of the commonwealth is not upon Tammany hall alone. The Barnes machine in every crisis has been a faithful and effective coadjutor of the Murphy machine."

### GIVEN LIFE SENTENCE.

Chicago, Sept. 27.—Hasson Simon, a native of Turkey, tonight was found guilty of the murder of Ali Abbul and was sentenced to life imprisonment. Abbul was murdered in a coffee house last January. The crime was not discovered until five days later when a suitcase containing parts of the body had been disposed of in the kitchen stove. The men had been business partners.

### TO PROBE BENTON RIOT.

Springfield, Ill., Sept. 27.—Adjutant General Frank S. Dickson was this afternoon sent to Benton, Franklin county, where race riots were threatened early in the week. General Dickson was ordered to Benton to make an investigation of conditions following the receipt by Governor Duane of requests from the Russian and Austrian consuls that the subjects of those two countries be protected.

### RANKS' FUNDS INCREASED.

Topeka, Kan., Sept. 27.—Kansas has \$6,000,000 more in the state banks than was in those banks last June and \$12,000,000 more than a year ago, according to Charles M. Swayer, state banking commissioner.

### NEGOTIATIONS CONCLUDED.

Constantinople, Sept. 27.—The peace negotiations between Bulgaria and Turkey were concluded satisfactorily today. A treaty of peace is to be signed by the plenipotentiaries of the two nations on Monday.

### WEATHER INDICATIONS AND TEMPERATURES

Washington, Sept. 27.—For Illinois: Fair Sunday, except rain in extreme south, warmer in north and central portions; Monday fair, warmer, light to moderate east to south-east winds.

Chicago, Sept. 27.—Current, maximum and minimum temperatures for today were:

Boston	60	68	58

### SPARKS FROM THE WIRE

CHICAGO, Sept. 27.—Fire tonight destroyed the plant of Miller Hall & Son, bedstead manufacturers, at a loss of \$250,000 and caused injuries to two firemen who were caught under falling walls.

### SPRINGFIELD, Ill., Sept. 27.—H. J. McMurray, of Hillsboro was today appointed by Governor Duane public administrator of Montgomery county to succeed J. M. Baker, resigned.

KIRKSVILLE, Mo., Sept. 27.—A. A. Lee of this city tonight shot and slightly wounded his wife and then committed suicide. The couple had been separated for three months.

### CONSTANTINOPLE, Sept. 27.—

Turkey has notified Greece of the resumption of peace negotiations immediately the peace treaty with Bulgaria is signed. The embassies here have received telegrams that two hundred Greeks have been massacred in Western Thrace.

### SANDUSKY, Ohio, Sept. 27.—

Seven persons were injured, four of them perhaps fatally, when the automobile in which they were riding crashed into a Pennsylvania passenger train near this city tonight.

### ALBANY, N. Y., Sept. 27.—

A mysterious woman, who is believed by the board of managers of the impeachment trial of Governor Sulzer to be conversant with many of his Wall street transactions, is being sought. Detectives have been searching for her in New York for weeks. It was learned tonight, but have been unable to locate her.

## POLICE GIVE ROBBERY AS MOTIVE FOR MURDER

AS MOTIVE FOR MURDER

Body of Chicago Dancing Teacher Found on Railroad Tracks

CHICAGO, Sept. 27.—Robbery by some one who lured her to a lonely spot on terms of friendship was held by the police tonight as the probable motive for the murder of Mrs. Mildred Allison Rexroth, 37 years old, a dancing teacher, whose body was found today on the tracks of the Elgin, Joliet & Eastern railroad, near Wayne, a suburb.

Before the body had been placed on the tracks, obviously to cover up the murder, the woman had been shot fatally in the head. A few moments before her death the woman had been laughing and jesting with a man with whom she had alighted from an electric train from Chicago and with whom she had walked up the tracks in the darkness of last night.

Efforts had been made by the murderer to obliterate the woman's identity and make it appear she had been killed by an electric train. A diamond ring had been taken off her finger and a chamber key in which she carried jewels about her neck had been emptied and thrown aside, but a bracelet on which were her initials had been overlooked.

Before a motorman discovered the body by running over it, a man telephoned the woman's home in Chicago. "She won't be home today. She's gone on her honeymoon."

Who the man was who accompanied the woman on the trip to Wayne, where she said she was going to establish a tango class, was a mystery on which the police were seeking light. Mrs. Rexroth's employer at a dancing club in Chicago said she had been called to the telephone and had arranged to meet Lincoln Spencer, who was to help her with the dancing class at Wheaton. Spencer was sought by the police, but was not found.

A sister of Mrs. Rexroth said the latter had been divorced from W. H. Allison and last May had married to E. A. Rexroth, Jr., son of a farmer at Macomb, Ill.

### Locate Woman's Husband.

Macomb, Ill., Sept. 27.—Everett Rexroth, husband of the woman murdered in Chicago, was located on his father's farm here today. He said the woman was in Macomb a month ago, but that she had left saying she was tired of farm life. He added he could throw no light on the murder.

### POLICE ARREST WILKINSON; ADMITS MURDERING WIFE

Prisoner Says He Struck His Wife With a Hammer and Did Not Know Whether She Was Dead or Alive When He Buried Her.

Logansport, Ind., Sept. 27.—Clyde Wilkinson, 34, who had been sought by the police since yesterday when found buried in a cornfield on a farm where he had lived near Peru, Ind., was arrested here today and, according to the police, he confessed that he had killed his wife in the presence of their two sons. The boys were with him when he was arrested.

Wilkinson seemed dazed when arrested. He said he struck his wife with a hammer during a quarrel. He did not know whether she was dead or alive when he buried her, he said.

### QUARREL RESULTS IN KILLING OF CANDIDATE FOR SHERIFF

William Schuster, Proprietor of Savoy Hotel in Peoria, Shoots Otto Hofer.

Peoria, Ill., Sept. 27.—A quarrel today between Otto Hofer, Democratic candidate for sheriff, and William Schuster, proprietor of the Savoy hotel, ended in Schuster shooting and killing Hofer. Schuster was arrested.

Only two eye-witnesses, George Coyner and H. J. Lake, the bartender, were present when the shooting occurred.

According to their versions, Schuster and Hofer were in a room back of the saloon quarreling just before the tragedy. Lake and Coyner declare they do not know what the men were quarreling about.

### WEATHER INDICATIONS AND TEMPERATURES

Washington, Sept. 27.—For Illinois: Fair Sunday, except rain in extreme south, warmer in north and central portions; Monday fair, warmer, light to moderate east to south-east winds.

## Diamonds Make Good Investments

A fine diamond never depreciates in value. You wear it with pride and pleasure, and it is worth what you paid for it many years after you bought it. It can always be turned into cash at its real value.

Our long acquaintance with the diamond market, and our foresight in selecting some especially choice stones before the prices advanced enable us to offer some splendid values. The stones are brilliant in color, perfectly cut, and well fitted for adornment or as an investment.

We have unusually choice stones in rings, from 1-8 to 3-8 carat, mounted in hand-made 14 K. gold mountings. Prices \$15, \$25, \$35 and \$50.

In larger stones, we are selling some beauties at a very close margin. You cannot appreciate their beauty and value unless you see them.

## CROSS SIBERIA LINE INTO GREAT RUSSIAN EMPIRE

Customs of Inhabitants Vividly Portrayed by Tourists.

Hung in a corner of our dining car is an icon which is a painting of the Madonna and child, the halo stamped with gold and silver and it is regarded as a mascot or sacred object to ward off trouble and is to be found in most dining cars and other prominent places. Reverend Russians bow before it, for they are a people with great respect for sacred things. This will account for the pilgrimages of so many to Jerusalem to kiss the holy sepulcher and be baptized in the river Jordan, which is done annually by thousands from this land.

I have had a number of interesting discussions with my English friend and the man from New Zealand, who has the patriotism and proclivities of an Englishman. They take a hopeful view of China's future, pointing to the many centuries during which the country and government have existed as proof that they are capable of managing their affairs.

"What do you think of the movement toward woman suffrage in England?" I asked them one day.

"I think in time it will prevail."

"What do you think of the violence being used?"

"Of course no one can countenance that. The persons who are employed by those higher up, who do not thus far show their hands."

"How long will it continue?" "That, of course, no one can tell. Still I believe in the principle. Woman has as good a right to vote as man and then she would vote for good measures, such as temperance and the like. Then there is another burning question in our country which must be solved."

"What is that?"

"I refer to a conscript act. No nation can properly sustain itself without a strong army behind the government. Germany was nothing till it united and Bismarck established the principle of a strong standing army. In our country we depend on volunteers and we shall not be able to hold our own with other nations till the government has the power to conscript recruits. As it is now no party dare undertake it, for it would mean overthrow."

"How could female suffrage help it?"

"I am certain the women would vote for it solidly."

"What makes you think so?" "Simply this; they could be scared into doing it in a body and when it had gone far enough they could be scared into voting it out."

Both were ardent in their opinions and were earnest in expressing them.

The great hope of this region lies in its pastures and small things. The Russian government is doing wisely in promoting dairying by scientific methods, sending experts all over the country and teaching the farmers how to make a good article and already Siberian butter has a reputation away down in China, where it was a great thing to produce on the table a sample of sweet, yellow Siberian butter.

Another product which is fast coming to the front is eggs. The frugal Russian housewife can rear a few chickens and bring her eggs to the market and it is said today England sends over five million dollars a year to this country for eggs.

In this connection I cannot refrain from mentioning an industry I saw beginning in Paoingfu, the home of Rev. Alex Cunningham. A firm or company from Tientsin was erecting a large series of works there, extensive buildings, for the purpose of separating the contents of eggs, the whites from the yolks, and then, in some way preserving them and shipping them to various parts of the country.

The Russian serfs were liberated years ago and a great hue and cry was raised about it, but it is a question if their lot is much improved. They have to stay in their own towns and cannot even move without permission from the authorities and have no permission to work for wages and have so many restrictions placed about them that life is a burden with few compensations, the only great evil being the lack of opportunity to rise in life, thus destroying all ambition to work and improve one's lot in life.

We had a glaring example of the way in which the officials ride over the common people. A prominent officer of the government and suite, probably connected with the management of the railroad, had their private car attached to our train, but instead of taking the trouble to place it next to the baggage car, where it wouldn't interfere with our view from the observation room at the back end of the car we are in, they hitched on right behind and at each station the titled official, with his staff, gets out and looks over things in general and great respect is shown them. It is remarkable how carefully everything is swept and cleaned against their approach.

At one station the plank on the edge of the cut in which the track is located by level and at once orders were issued to have it repaired.

Recently the government is using inducements of various kinds to persons to settle in Siberia and we see hundreds of peasants scattered along at nearly every station and wonder how they will fare in their new homes.

I am often reminded of a famous order issued, I think, by the president of the Chicago & Alton road regarding the color to be used in painting the company buildings.

"Any color you like, so its red."

Along the great highway absolutely no other color than yellow is used when any painting is done. Even the log houses are frequently made of logs peeled or partly dressed and treated to a coat of bright yellow. It is rather pleasing, but somewhat monotonous.

Everything along the road is busily done, though this is supposed to be a fast through express.

When a stop is made all walk about as if in no haste, till starting time, when some one connected with the station rings a bell, always to be found at the door. This is a warning to all to get on board and in perhaps half a minute or a minute a second ring is heard and this is followed by a shrill mouth whistle by the conductor as a signal to the engineer, who responds with toot of his whistle and we are off. There is no bell cord connecting the train with engine and how the conductor would manage to stop the train when in motion I hardly know.

Peasants do quite a business at the stations supplying articles for travelers and I suppose immigrants are their best customers, though much is bought by people on this train, who like fine bread, butter, milk, Bologna sausage, dressed and roasted fowls and the like. With a meal once a day in the diner one can fare well enough with the things sold by these people.

June 30—Yesterday was Sunday and we put away our games and spent the holy hours as best we could. There was nothing of special interest to note, as the ride still continued across the great plains, varied somewhat with forests and hills. Much to our relief the official car was cut off and we again enjoyed riding in the observation room. We passed a number of fine stations and crossed several beautiful streams. Omsk was one of the leading places we visited or rather passed near, for the road has been built regardless of cities. The place has some 50,000 souls and is a mile or more distant from the road and a branch with droskies and other arrangements for transportation supply the need. Omsk is noted for its many educational institutions and various industries. Fifty miles distant is Tomsk, the capital of Siberia, and also a place of considerable importance.

July 1—For the first time in their lives the other members of the party have seen European soil. Yesterday afternoon we stopped at Maesk, the last station in Siberia and soon passed the "monument of tears," a white shaft erected at the boundary between Russia proper and Siberia, and so called because of the many exiles who have passed that way to their hopeless banishment from all that is dear to them. What an account will the Russian aristocrats have to answer in the last great day when called on to tell why they exercised such wanton cruelty. A writer well acquainted with this land says that if the government had used some of the money dissipated on useless luxuries and wanton extravagance of their aristocracy and tried to aid the people with education and uplift instead of the knot or lash and Siberia, how different might the history of the country be today.

Statouat was the first station on European soil and it is a well looking place, being in a good wheat growing country. We see rather an improvement in the appearance of the land and more seems to be cultivated, though the condition of the people seems to be little better. We see a great many big windmills, much like those in Holland, though they are hardly as large nor are they as trim and neat as those in the Netherlands. Here, as in the orient, the people live in villages and no scattered farm houses appear. The buildings are small and poor, thatched with straw and mere hovels, in which life is sustained. We just passed a town of this kind and in the midst rose a comparatively fine church, in striking contrast with the rest of the buildings.

I forgot to mention that yesterday afternoon we passed through the gap in the Great mountains and were impressed with the fine civil engineering displayed in the construction of the road. We needed but one engine to pull the train and the grades were easy. The mountains are rather attractive, though in comparison with our Rockies they are inferior, being hardly more than foothills when placed beside the eminences in the western part of our country.

This morning we stopped at Samara, a good sized place, and walked about the station. A host of immigrants were there and in addition to quarters in a part of the station, had another building all to themselves, and filled that too. Free hot and cold water were provided, as is generally the case in all large places, and food counters sold supplies. We saw a gang of convicts with chains about their ankles hobble along to their train and shall not try to describe our feelings.

This afternoon we crossed the large Volga, which is one of the largest streams in this part of the country. It was spanned by a bridge almost a mile long and a magnificent specimen of engineering. Certainly Russia has educated her civil engineers to some purpose, as this fine structure well demonstrates. This afternoon we are drawing near the end of our long railroad ride and are informed that we shall land in Moscow at nine in the morning.

The ride has been impressive of the vast size of this wonderful country and the possibilities contained in it. If it were in the possession of Uncle Sam how he and his wide awake voters would make it blossom as the rose. As it is the development must be slow, for when the winters are so long, the summer so short, with cold nights, when fuel has to be brought so many miles, it is easy to see the drawbacks attending the development of a country.

The Russian is inured to hardship and scanty fare and liberty is to him a dream which he seldom realizes, for it is hard to get away from his native land. A gentleman says when a native landed in our country he was impressed by the great buildings in New York, but when he sat down to his first meal in the new world his astonishment was at its height. Great, luscious sweet potatoes, meat, actually meat, and all he wanted, snowy white bread, cakes, and finally that apple pie. He had never seen the like and didn't know how to eat it, so took it all up and buried his face in it and then after

## Economical Buying

Economy in buying comes from making comparison. This means more than merely comparing prices. It means also comparing values, which is of greater importance. Studying over a few prices and keeping posted only on certain lines gets the purchaser very little, because they usually pay more on the items to which they give least attention than they save on all the others.

Customers, however, who have consistently made purchases here and who have really given attention to both the quality and the prices we continually offer have been convinced that this store can be made the means of reducing high living cost. We have made a study of household and table economy and we can easily prove to customers that we can save them money and yet give them the very best.

## Quality Goods in Bulk

We not herewith some offerings on which we lay special stress and on which we invite comparison. Most of these goods are offered in bulk and that means handling them in the least expensive way possible. Consult us on these:

**Harmon's**  
DRY GOODS STORE

Jacksonville, Ill., September, 1913.

**DEAR FRIENDS AND PATRONS:—**

The Fall season is now upon us—with real winter "just around the corner." As the mercury drops from day to day, and the chilly winds blow, you are brought face to face with the urgency of procuring cold weather wearables. New dresses are to be bought—gloves, hosiery, underwear for the whole family, warm blankets—and the hundred and one other things that contribute to your comfort.

It is at just such a time that I desire to come into closer touch with the public and tell you in this personal sort of way of this store—its goods—its service.

As I look over the gigantic stocks that fill every shelf, showcase and counter and recall what a thorough search of the market has been made to accomplish this result—how fashion's latest whims were met—how carefully the dependability of every article purchased was investigated—and how bargain after bargain was driven—I feel at liberty to extend an invitation broadcast to every woman in Jacksonville's trade limits to bring her dry goods wants to this store, with full confidence that her every need can be satisfactorily filled.

Perhaps some of you who read this letter have never visited this store—and do not know that it is "the Store for Dress Goods and Silks." If so, we extend to you a special invitation to investigate our claim. Come in some day this week, look around, note the low prices on the many beautiful things you see displayed, and see if you do not discover as many others are doing daily, that this is a splendid place to trade.

You will find our sales force to be courteous and pleasant to deal with, thoroughly posted about fabrics and styles and a real help in selecting goods for your special requirement.

The styles in women's apparel this season are more attractive than ever—gorgeous effects are sought after and are developed chiefly from broadened weaves. We are prepared to meet this demand to the perfect satisfaction of the most critical. Our dress fabric section is the wonder section of the whole store. It is kept right up to the minute in styles and down to bed-rock in prices.

Trusting that I may soon have the pleasure of meeting you in the store, I beg to remain,

Yours Respectfully,

E. B. HARMON.

WEST SIDE SQ**MISS FAIRCHILD IS ADVANCE  
AGENT FOR RAYMOND**

Charming Young Lady of the Company Essays Role of Business Representative.

Miss Madeline Fairchild, and the appellation is by no means a misnomer, is in Jacksonville as advance agent for the Great Raymond, who opens a week's engagement at the Grand Monday. Miss Fairchild is somewhat new to the role, as she has but temporarily given up her work as one of the fair illustrators with the Raymond company to look after the affairs ahead of the show. It so happens that William Nordel, the regular agent, ate oysters a little too early in the season contracted a case of typhoid, which is just now keeping him a hospital prisoner. And it was to make good this deficiency in the Raymond organization that Miss Fairchild undertook the duties of "the man ahead." While the Great Raymond had every confidence that Col. Hunt was making all necessary arrangements for the coming week, nevertheless, in accordance with his custom, he wanted his special representative here for two days prior to the engagement and hence Miss Fairchild's presence. Miss Fairchild has engaged hotel headquarters, has arranged for the special cars bearing the company's accessories to be sidetracked at the Wabash and has completed other preparation details. Monday morning, no doubt, she will be at the station to welcome the company and to offer proof that she has gracefully and cleverly performed all the duties of a well ordered and experienced advance agent.

Lady Maud C., fastest pacing mare in the world, with record of 2:00 1/2, will be seen Wednesday, October 1, in Jacksonville.

**Knox County Farm for Sale**

Knox county is in the center of the great corn and blue grass region of northeast Missouri. Edina is the county seat, a little city of two thousand people and located just forty miles west of Quincy, Illinois, on the Q. O. & K. C. R. R. Edina is a thriving little city, all branches of business represented, has four banks, eight churches, one of which, a Catholic church, the largest in Missouri outside of the larger cities; a good public school that articulates with the University of Missouri; two parochial schools under a thorough management.

Our little city is on a high elevation overlooking the deep rolling prairies surrounding us.

I am not a land agent, I own this farm and desire to sell it and hence have placed a price where it is bound to sell.

This farm is seven miles north of Edina, four miles from Baring, a town of 500 people on the line of the great Santa Fe R. R., and is one and a half miles from the town of Fabius on same road, all of which furnish good trading points and splendid shipping facilities. One-half mile from school on a good public road; phone connections all over the county, free mail delivery at the door. A nice five-room cottage, mostly new, with cellar 14x8 ft., barn 26x40 ft., large enough for the farm, with loft room sufficient for 25 tons of hay; also corn crib of 1200 bushels capacity, with shed room on two sides; all kinds of fruit of the best variety. This farm is well watered. 230 acres in this farm, all under fence and in a high state of cultivation except 80 acres, which is in timber and blue grass pasture; and is gently rolling, just enough to carry off the surface water. It is well fenced with woven wire into four separate fields. 40 acres is now in meadow; 15 acres pure clover; the remaining 145 acres under the plow this year. I have endeavored to sell my own farm and have adopted this method of doing it. My price is \$75 per acre, on easy terms, if taken in thirty days.

THE JACKSONVILLE JOURNAL

JACKSONVILLE JOURNAL CO.

The fact that Morgan county road officers have organized into an association and at the meeting Saturday adopted a resolution favoring the Tice road law and commending the attitude of the county commissioners in favoring hard roads indicates that there are brighter days ahead for Morgan county road conditions. There may be defects in the Tice road law but it undoubtedly is a big step toward road betterment and should bring to pass a condition whereby uniform work is done on the roads of the state. Many efficient road commissioners in the past have failed to get the best results just because they worked alone without regard to what was being done in districts adjoining. The new organization, if its avowed purpose is carried out, will mean that there will be an interchange of ideas and a combined effort to improve road conditions as a whole. The commissioners seem to have taken a broad minded view of the situation and propose to back the movement for good roads of which the Tice bill is the advance agent. The people generally will commend the stand of the road officials.

Jacksonville women will certainly gather experience in voting very rapidly. They will cast ballots in the local option election in November and will also have a voice in deciding as to whether or not franchise shall be granted to the Jacksonville Railway & Light Company. Then when the light bond issue gets to a vote it will be up to the ladies to say whether or not they "love darkness rather than light."

While municipal ownership of light plants may represent a fallacy it is nevertheless true that a majority of the people have the feeling that the city can furnish its own light more cheaply than it can buy it. Any figures however that the local light plant might make would be read with interest by the public. The city council would do well too, to again take the matter up with the Keokuk Power Co., or the Central Illinois Public Service corporation to see if they have anything to offer. If these things are done before the question of the bond issue is being actively discussed, there will be no occasion for delay when some citizen suggests that the proper way to light the city is by private contract.

A new law on the statute books of Illinois gives to cities the right to condemn and buy light and power plants. By the authority of this law Jacksonville could condemn and buy the local gas and electric plant and go into the lighting business. In payment for the plants, bonds payable by general taxation or utility certificates could be issued. However as a city cannot issue bonds beyond the legal limit and it is said to be impossible to market utility certificates Jacksonville is not likely to take this step. The local gas and light plant is said to be worth about \$275,000,000 and the city is now within about \$65,000 of the legal bonded indebtedness.

The recent statement said to have been made by Governor Dunne to a Morgan county Democrat, that the reason more Morgan county Democrats have not been rewarded with state jobs is attributable to the fact that the matter of appointments was left to J. F. Morris, one of the Democratic representatives from this district, has emphasized anew the need that Morgan county has for direct representation in the Illinois General Assembly. It may or may not be a great loss for Morgan county to be practically cut off from state positions, but far more important is the fact that Morgan county interests are unquestionably given secondary consideration or entirely lost sight of by members of the general assembly of this district. Morgan county is certainly large enough and important enough to have a representative from within its own boundaries in the state governing body. If some good citizen is nominated from this county at the next election, he will be very likely to get some hearty support from voters of all parties for more and more are the people awakening to the need of local representation.

The statement of the governor, suggesting, as it does, that Morgan

county has very slim chances of securing anything from the state plum tree has served also to increase interest in federal appointments, especially the Jacksonville postmaster-ship. And now comes the authentic information that Senator James Hamilton Lewis has openly stated that so far as the local postmaster-ship is concerned that it is a question for Congressman Rainey to decide. Not only has Senator Lewis stated this to certain Morgan county Democrats, but it is also said that he has written the same thing to one of the aspirants for the office.

It seems to be the feeling that local Democrats are really glad that Postmaster Reeve's appointment does not expire for several months, yet, for they realize that while the postmastership will provide a nice lucrative berth for some loyal Democrat that after the appointment is made there will be a lot of bruises to heal. Local conditions are such that Democratic leaders rather hate for the time to come when an appointment must be made, for all things considered they would rather go along in peace and quietness—realizing as they do that even dividing spoils is an operation attended with a vast amount of sorrow and sadness. The local aspirants are said to include W. D. Doyne, Alden Brown, Lloyd Brown, Richard C. Reynolds, John S. Sheppard, W. C. Howe and Edward M. Dunlap and it is reasonable to suppose that they will now devote their attentions to the cultivation of Mr. Rainey's good graces. Meanwhile some Democrats are asking what is the matter with Elza Williams of Pittsfield, congressman at large, who might reasonably be expected to have some voice in the local situation. Mr. Williams is not in the third class and it is not reasonable to suppose that he expects to take no part in the distribution of the fat places in his home district.

SCRIMMAGE GAME WITH  
LOCAL HIGH SCHOOL TEAMS

Illinois College Football Enthusiastic  
Warm up in Practice Contest—  
High School Takes on Alton Next  
Saturday.

Illinois college held its first scrimmage Saturday afternoon with the local high school as an opponent. It is early in the stage of the game to get a line on the men, but some of the new material looks most promising. Capt. Alford was on the firing line while in the back field was Stewart, Wilson of the Springfield High school and Taylor of Chapin; Pierce and Karch were at ends; Mitchell of last year's Pittsfield High school team was being tried out at left tackle; Frisbee, the star man of the Springfield High school team who played end with that team, was being tried out for right tackle, a position he is greatly fitted to play. Carl Lukeman was at his old position at left guard, as Robbins Russell, who played last year as right tackle, was shifted to right guard. Kormeyer and two other men were tried out at center, and other men were sized up. Stewart, whose work as a punter last year was splendid, bids fair to outdo himself this year in booting the ball.

The new uniforms have arrived and this coming week the players will get down to real business as there is a practice game scheduled for next Saturday with the team from the School for the Deaf.

The game yesterday was a great help to the high school as they have their first regular game next Saturday here with the Alton High school as an opponent.

SOCIAL EVENTS.

Miss Edith Wyckoff gave a sewing Saturday afternoon at her home on Westminster street with Miss Helen Rawlings as guest of honor. The company included the teachers formerly associated with Miss Rawlings when she was a member of the faculty of State School for the Deaf. The occasion was one of very great pleasure. Miss Rawlings is now taking some special studies at Chicago university and will later return to China, where she has been engaged in missionary work for several years.

The first meeting this season of the South Side Circle was held Friday afternoon at the home of Mrs. W. L. Robertson of South Main streets. The paper was by Mrs. H. Weber, "When This Old Club of Ours Was New." She was followed by several ladies who spoke in a reminiscent vein of the early days of the organization. Refreshments were served and a fine time socially was enjoyed. Mrs. Charles Rhine sang a solo and Mrs. E. C. Carpenter played a solo selection on the piano. Next Friday the meeting will be at the home of Mrs. J. W. Sperry on Routt street. Papers will be read by Mrs. W. W. Gillham and Mrs. W. T. Reaugh on the subjects, respectively of Wireless Telegraphy and "Aerial Navigation."

The Pleasant Hour club met Saturday from 2:30 until 5 at the home of Miss Bea Phillips of West State street. An unusually fine social time was enjoyed and elegant refreshments were served. The next meeting will be held in October with Mrs. D. T. Heilmich.

The world's greatest spectacular war drama, in five parts. This stupendous feature cost over \$100,000 to produce, but it contains a hundred thrills which a million dollars could not have purchased.

Produced by THOMAS H. INCE, Managing Director of Kay-Bee and Broncho Films. Five reels of overwhelming magnificence, superb acting and sensationalism. Without doubt the greatest moving picture ever produced.

An absorbing story leads up to the great struggle, which lasted three days—July 1, 2 and 3—and in which the loss of life was appalling. General Lee hurled himself upon the North, and the Union forces were hurriedly marshalled and met him at Gettysburg. The Union army numbered more than 77,000, and the Confederate forces 59,000. The charge of General Pickett, with 4,900 men, following a fierce cannonading, into the center of the Union army, is the most sensational, heroic and thrilling incident in the history of the world.

Don't fail to see this greatest of all motion picture productions; 5,000 men take part, over \$10,000 worth of powder was used.

## ATTORNEY GENERAL LUCEY ANSWERS SUFFRAGE INQUIRY

Says Right of Women to Vote on Local Option Question Is Clear—Votes May Be Sworn in.

A number of people in Jacksonville have felt some uncertainty as to the rights of women with reference to voting upon the local option question and the manner of registration therefor. The Journal recently wrote Attorney General Lucey to ask if he had rendered an opinion on this question and his reply follows. The text of the Woman's Suffrage law is also reprinted as a matter of information.

Gentlemen: I have your favor of the 25th instant, in which you inquire whether women may participate in an election at which the local option question is to be submitted, and, also, whether they will have opportunity to register or must they be sworn in on election day.

I am enclosing herewith a copy of the Woman's Suffrage Act of 1913, from which it is evident that women may participate in local option elections.

As you will observe from this law, women shall register in the same manner as male voters, and, in my opinion, if they fail to register, their vote may be sworn in, in cities not having a board of election commissioners, as in the case of other voters.

This is in no sense an official opinion of this department, but merely an unofficial statement of my views of the statute in which you are interested, given you as a courtesy. Very respectfully,

P. J. Lucey, Attorney General.

## Woman's Suffrage Law of 1913.

An Act granting women the right to vote for presidential electors and certain other officers, and to participate and vote in certain matters and elections.

Section 1. Be it enacted by the People of the State of Illinois, represented in the General Assembly: That all women, citizens of the United States, above the age of 21 years, having resided in the state one year, in the county ninety days, and in the election district thirty days next preceding any election therein, shall be allowed to vote at such election for presidential electors, members of the State Board of Equalization, clerk of the appellate court, county collector, county surveyor, members of board of assessors, members of board of review, sanitary district trustees, and for all officers of cities, villages and towns (except police magistrates), and upon all questions or propositions submitted to a vote of the electors of such municipalities or other political divisions of this state.

Sec. 2. All such women may also vote for the following township officers: Supervisors, town clerk, assessor, collector and highway commissioner, and may also participate and vote in all annual and special town meetings in the township in which such election district shall be.

Sec. 3. Separate ballot boxes and ballots shall be provided for women which ballots shall contain the names of the candidates for such offices which are to be voted for and the special questions submitted as aforesaid, and the ballots cast by women shall be canvassed with the other ballots cast for such officers and on such questions. At any such election where registration is required, women shall register in the same manner as male voters.

Approved June 26, 1913.

## IRISHMEN PLAN MEMORIAL.

Boston, Sept. 27.—Arrangements have been completed for the memorial meeting to be held tomorrow at Faneuil hall in honor of the late John O'Callaghan, national secretary of the United Irish League of America. According to the program arranged for the meeting Mayor Fitzgerald will preside at the gathering and all Irish societies will have specially designated representatives on the platform. President Michael J. Ryan of the United Irish League of America, Captain Edward O'Meara of Condon of Springfield, and Hon. Patrick Egan, former American minister to Chile, are among the notable speakers who will address the meeting. The plan for a suitable memorial to the late John O'Callaghan will be thoroughly discussed and it is expected that funds will be liberally contributed by those attending the meeting.

## EXAMINATION FOR RHODES SCHOLARSHIP AT OXFORD.

President Edmund J. James of the University of Illinois, chairman of the Rhodes scholarship committee of Illinois, announces that a qualifying examination for all candidates for an Oxford Rhodes scholarship will be held Tuesday, October 14, and Wednesday, October 15, 1913, at the Northwestern University building, corner of Lake and Dearborn streets, Chicago.

This examination is not competitive, but corresponds to the entrance examinations required by many American colleges. From the candidates who pass this examination a scholar will be selected for Illinois, who will begin work at Oxford in October, 1914.

A Rhodes scholar is appointed for a period of three years, and receives the sum of fifteen hundred dollars each year. A Rhodes scholarship at Oxford is therefore a prize of greater money value than any scholarship or fellowship at any American university.

The candidate for a Rhodes scholarship must be an unmarried male citizen of the United States with at least five years' residence; must by the first of October, 1913, have passed his eighteenth but not his twenty-fourth birthday; and must have completed at least his freshman year at some recognized degree-granting university or college.

In accordance with the wishes of Mr. Cecil Rhodes, the committee of selection, in selecting a student for appointment to a scholarship, takes into consideration, (1) his literary and scholastic attainments; (2) his fondness for and success in manly outdoor sports, such as football and the like; (3) his qualities of manhood—truth, courage, devotion to duty, sympathy for the protection of the weak, kindness, unselfishness, and fellowship; and (4) his exhibition during school days of moral force of character and instincts to lead and take an interest in his schoolmates.

Candidates are expected to send written application at once to President Edmund J. James, Urbana, Ill. All candidates will register in person between 8 and 10 a. m. October 14, at the place of examination. The examination will begin at 10 a. m. Tuesday, October 14.

September 26, 1913.

## WIDOW OF GENERAL ANDREW PORTER DIES

Philadelphia, Pa., Sept. 27.—Mrs. Margaretta Falconer Biddle Porter, widow of Gen. Andrew Porter, died today at her home in Washington. She was about 83 and was a member of the Biddle family of Michigan, which gave several officers to the United States Army. She was born in Detroit and was a daughter of John Biddle, who was a member of congress. He died in 1859. Her son is Col. J. Biddle Porter, United States Army, stationed at Fort Leavenworth, Kan.

General Andrew Porter was a relative of Ensley Moore and Robert M. Hockenhull. General Porter's father was territorial governor of Michigan, under President Jackson. General Porter was a graduate of West Point, a regular army officer, served in the civil war and died some years ago in Paris.

Get a 10-cent box now.

You men and women who can't get feeling right—who have headache, coated tongue, foul taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick gassy, disordered stomach, or have backache and feel worn out.

Are you keeping your bowels clean with Cascarets, or merely forcing a passageway every few days with salts, cathartic pills or castor oil?

Cascarets work while you sleep; cleanse the stomach, remove the sour, undigested, fermenting food and foul gases; take the excess bile from the liver and carry out of the system all the constipated waste matter and poison in the bowels.

A Cascaret tonight will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet; liver and bowels regular, and head clear for months. Don't forget the children. They love Cascarets because they taste good—never grip or sicken.—Adv.

LATEST NEWS FROM THE FIELD OF SPORTS

YALE DEFEATS HOLY CROSS ELEVEN TO 0

BLUE TEAM SCORES IN FIRST AND FINAL PERIODS.

Holy Cross' Attempt to Drop Kick From the Thirty Yard Line in Second Period Fails—Pennsylvania Shows Up Well in First Game—Harvard's Defense Is Impervious.

New Haven, Conn., Sept. 27.—Yale defeated the Holy Cross eleven this afternoon 10 to 0. The blue team scored in the first period on a field goal from the twenty-yard line by Guernsey, captain of the freshmen eleven last year. In the second period, Holy Cross attempted a drop kick from the thirty-yard line, but it was blocked.

Early in the final period Holy Cross was driven back steadily until the ball was in Yale's possession on the visitor's 7 1/2-yard line, then the latter held and Yale lost the ball on downs. A few minutes afterwards Holy Cross lost the ball on down. A few minutes afterwards Yale scored a touchdown, the tally being made possible by a bad punt against the wind by Donovan of Holy Cross, which sent it outside his own twenty-five-yard line. A five-yard gain around the end by Knowles and forward passes by Alsworth and Guernsey carried the ball close to the Holy Cross line, when a quick quarterback play through center brought the score. Ketcham kicked the goal.

Pennsylvania, 53; Gettysburg, 0. Philadelphia, Sept. 27.—Pennsylvania showed better form in her opening football game of the season today than the red and blue has displayed in her first game in several years, defeating Gettysburg college by the score of 53 to 0.

Pennsylvania defeated the same team last year 35 to 0. The home eleven played with much snap and force. Gettysburg was weaker than expected, being unable to fathom Pennsylvania's play and had difficulty in stopping the red and blue's dashing backs.

Harvard, 34; Maine, 0. Cambridge, Mass., Sept. 27.—Harvard's varsity football eleven presented a powerful attack and an impervious defense today in its first game of the season, winning from the University of Maine, 34 to 0.

The feature play of the game developed by the first kickoff, when Logan received Maine's kick on Harvard's 23-yard line and ran 87 yards for a touchdown. A few minutes later Mahan took the ball for a right end run and carried it seventy yards for another Crimson score.

Straight football out Brickley and Mahan each in positions to cross Maine's line for the third and fourth Crimson scores in the second period. Captain Storor kicked goals from each of these four touchdowns.

Harvard's last touchdown was made in the last period by McKillop. Indiana, 48; DePauw, 3. Bloomington, Ind., Sept. 27.—Indiana university overwhelmed DePauw, 48 to 3, in the opening game of the football season on Jordan field this afternoon. Only in two or three instances did the visitors threaten the crimson goal, once in the second period when Rowan, by a place kick from the thirty-yard line made DePauw's only score.

Indiana's touchdowns were made by Erehart (2), F. W. Hilker in the second period; Fleming, Krause, Krause, third period; Barnhardt, Davis, fourth period. Indiana failed to kick the final goal.

Minnesota, 14; South Dakota, 0. Minneapolis, Minn., Sept. 27.—Displaying strength, but an apparent lack of team work, the University of Minnesota opened its football season today by defeating South Dakota university 14 to 0 in a hard fought game.

All of the scoring was made in the initial period, when Minnesota broke through their opponent's line almost at will.

South Dakota appeared to strengthen wonderfully in the last three periods, during which neither team came dangerously near to scoring.

Princeton, 14; Rutgers, 3. Princeton, N. J., Sept. 27.—Princeton defeated Rutgers college in the opening football game of the season here today by the score of 14 to 3, after a hard tussle. The good showing of the New Brunswick team was due in a measure to the weight of the men, but the Tigers offset this with a series of formations not anticipated by the visitors.

Cornell, 0; Colgate, 0. Ithaca, Sept. 27.—Cornell and Colgate battled fiercely to a tie here today, neither team being able to score. The ball was see-sawed up and down the field during each quarter, with Cornell on the defensive most of the game. In the fourth period Cornell had the ball on Colgate's one-yard line, but lacked the necessary punch to shove it over. Colgate holding like a stone wall.

Marquette, 14; Milwaukee Normal, 0. Milwaukee, Wis., Sept. 27.—Marquette university opened the football season here today by scoring two touchdowns in the fourth quarter against Milwaukee Normal school, winning 14 to 0.

QUIMET MEETS DEFEAT. Brookline, Mass., Sept. 27.—De-feat overtook Francis Quimet, the open golf champion of just a week, in the singles for the Lesley cup today. His conqueror by a score of one up for the eighteen holes was R. S. Worthington of Shawnee, Pa., leader of the Philadelphia team. The Massachusetts players, however, recaptured the trophy by a total score of 12 to 10.

SIX CLUBS IN CENTRAL LEAGUE. Grand Rapids, Mich., Sept. 27.—Representatives of the six clubs of which the Central league is composed arrived here today to attend the two days conference of the league which will begin here tomorrow. Under the rules of the league the meeting is always held in the city whose team won the pennant for the season and as the Grand Rapids team is the pennant winner of this year's season the Central league, the conference will be held here.

President Louis Heilbrunner of the league has made the positive statement that the members of the league do not contemplate increasing the membership or clubs, which at present is limited to six. Among the matters to come up at the meeting are the adoption of a new constitution, many changes in the rules, the appointment of a schedule committee, the fixing of the salary limit and other subjects of interest.

The drafting season for Class B leagues starts October 7 and continues for five days. The Central league has already closed several deals for next year's players.

PENNA. SAFE FOR GIANTS. New York, Sept. 27.—With the defeat of Philadelphia by Boston this afternoon, New York won the National League pennant for 1913, although itself defeated by Brooklyn. If Philadelphia were to win and New York to lose all their games yet to be played, New York would still lead by four points.

BABY RELIANCE WINNER. Kansas City, Mo., Sept. 27.—The "Baby Reliance" driven by Jay Smith of Algonac, Mich., today won the national speed contest, a seven-mile motor boat race, the feature of the Kansas City Yacht Club's regatta. Her time was eleven minutes and nine seconds. The "Oregon Kid," with S. W. Brock of Portland, Ore., at the helm was second. The "Tango" was disabled by striking drift wood and was unable to finish.

ATTENDED CONVENTION. W. D. Gates has returned from Chicago where he attended the International Congress of Refrigerators. Four hundred people from foreign lands were present and at a banquet which was held two thousand sat down to the tables.

NOTES FROM THE  
LABOR WORLD.

The dispute of long standing between the Journeymen Stonecutters association and the National Out Stone Contractors' association has been settled by a compromise.

An arbitration board has been selected which will hear the arguments in the controversy between the Burlington railroad and its employees. The sessions will be held in Chicago.

Plans have been made for a speaking campaign in the interest of organized labor of Minnesota and portions of Wisconsin by Clarence Darow of Chicago. The campaign will begin in St. Paul, October 3.

The San Francisco Labor Council has sent a general appeal to all labor organizations affiliated with that council for financial aid to the cloak-makers, of whom 300 to 350 are on strike in San Francisco.

International President W. D. Mahon of the street railway employees reported to the convention held at Salt Lake City recently that 49,934 members had been initiated by the Amalgamated association in the last two years.

John Finan of Chicago, was re-elected vice president of the Painters' International union recently. Finan also represents Illinois on the executive board. Under the rules of the organization no state can supply more than one officer.

At a hearing recently held at New Bedford, Mass., by a special legislative committee, several hundred textile operatives expressed themselves as opposed to the new child labor law which went into effect in this state on September 1.

At a recent international convention of the Photo Engravers' union provision was made for an old age pension fund and for the payment of \$1,000 death benefit to the families of departed members. Both will probably become effective in a year or two.

The organization of the United Mine Workers has reached the highest point it has ever attained in its paid up membership. Announcement was recently made that the paid up membership of the organization on August 31 was 409,153 and that there was a gain during the last 18 months of more than 100,000.

Plans have just been submitted to the local unions of carpenters in San Francisco for the amalgamation of the United Brotherhood of Carpenters and Joiners of America and the Amalgamated Society of Carpenters and Joiners, with a prospect of the measure being adopted. The result is to be announced October 1.

According to a report to the Central Labor Council of the Labor Temple association of Jacksonville, Fla., has placed the stock for the building on the market. It is planned to push the sale of the stock as much as possible so that work on the building may be begun at the earliest moment, possibly this fall.

At the recent session of the Massachusetts Federation of Labor a resolution was adopted which calls upon the state legislature to submit to the voters of the state a measure providing for public ownership of street railways in the state. This is the first time that labor in Massachusetts has taken this stand.

England is once more threatened with a great railway strike, and Liverpool, as in former cases, will be the storm center. The trouble began with the refusal of the Liverpool dockers to handle freight from Dublin, where transport workers are on a strike. The dockers went out, causing a complete freight tie-up on the lines of the London & North-western Railway company.

**SIX NATIONS IN AVIATION CONTEST.** Rheims, Sept. 27.—Never before has an international aviation meeting so well merited its description as the international meet which began today on the famous aviation field at Bethany, near this city, where the notable meetings of 1909 and 1910 were held with remarkable success. Six nations are represented among the contestants for the "Coup International d'Aviation," the great race, which will be the crowning event of this meeting. France and Great Britain have entered three machines each for the international event, America two, and Italy, Germany and Belgium one each.

The meet is held under the auspices of the Aero club of France and will occupy three days. Today was devoted to the eliminating tests for the French machines which have been entered for the Coup International d'Aviation. The contestants were required to fly over 200 kilometers, the actual distance of the international race. Tomorrow there will be various contests, some of which will be of unusual character. Special prizes will be awarded to the victors in the various contests. The grand race for the international aviation prize will take place on Monday, the last day of the meet. Aviators and aviation fans from nearly every European country have arrived here to witness the preliminary trials and the contests and races of the second and third days.

ALFALFA HAY BEST  
ROUGHAGE FOR LAMBS.

"The Farmer who Succeeds Must Know, and Science Is His Teacher."

The South Dakota experiment station has been making some experiments with various substances as roughage when fattening lambs, and finds alfalfa hay the best of all. The following is a summary of the results:

1. Corn silage as a sole ration for lambs is not the best of feeds. The lambs were thrifty during the feeding period, but would not eat enough silage to fatten. Only five of the ten head made a gain during the 67 days feeding period. The total of these gains does not amount to as much as the average gains made by other lambs that received other feeds. The total loss of the ten head was nine pounds.

2. White sweet clover is an excellent roughage, when fed with a grain ration, for fattening lambs. The gains made rank next and close to gains made by lambs fed alfalfa hay as a roughage.

3. Pea hay is a good roughage with grain for fattening lambs, as a lot of lambs made a very uniform gain, ranking next to those that received sweet clover hay for roughage.

4. The net results from the shredded corn fodder lot were the poorest of all roughage tried with a grain ration. The gain of the lambs was not uniform, ranging from six to thirty-three pounds per head in 67 days. Neither was the average gain as large as that received from the lambs that were getting prairie hay with the same kind of grain ration.

However, this fodder has a value for fattening with grain, but is not equal to prairie hay, pea hay or alfalfa.

5. With the several hundred head of lambs fattened at this station during the past eleven years, the largest gains have been made with those which received alfalfa hay with a grain mixture. The results reported show that the lot fed alfalfa as a roughage with grain made an average daily gain of fifty-six hundredths of a pound during the 61 day feeding period. In this experiment during a 67 day feeding period, an average daily gain of fifty-six hundredths of a pound was secured.

With ordinary feeding, gains from one-quarter to one-third of a pound was considered good.

Every lamb in all of the lots receiving alfalfa made comparatively large gains. The ration consisted of oats and shelled corn mixed half and half by weight. While with other lots some of the lambs did not make much more than one half as much gain under the same conditions. This plan puts a high feeding value on alfalfa hay as a roughage for lambs—H. A. McKeene, Secretary, Illinois Farmers' Institute.

**EGG THIEVES.**

Friday night some sneak thieves stole from a refrigerator on the porch of W. T. Reaugh's residence a quantity of eggs. The scamps had the gall to empty a basket of clothes pins and use the basket to carry away their plunder. Some one also visited the home of Rev. Clyde Darlow and took eggs from his refrigerator. Mr. Reaugh thinks it is thieves who take the eggs to sell them as nothing else was touched, though similar depredation have occurred before in the vicinity.

**QUICK RELIEF FOR RHEUMATISM.**

George W. Koon, Lawton, Mich., says: "Dr. Detchon's Relief for Rheumatism has given my wife wonderful benefit for rheumatism. She could not lift hand or foot, had to be lifted for two months. She began the use of the remedy and improved rapidly. On Monday she could not move and on Wednesday she got up, dressed herself and walked out for breakfast." Sold by L. P. Allcott, druggist.—Adv.

## CONSERVATORY NOTES.

The school year opened last Wednesday, Sept. 24th, with a large registration in all departments—the largest for some years.

The Illinois College chorus holds its first meeting on Monday evening, October 6th at seven. Friends of the college and conservatory, as well as students, are invited to join, and application for membership may be made to Mr. Kritch or Mr. Munger. Work will be begun on Mendelssohn's great oratorio "Elijah," which has not been given in Jacksonville for many years.

Mrs. Bullard will be unable to play the organ at the Congregational church next Sunday morning, September 28th, and Mrs. Wilson's solo will be accompanied by Mr. Munger on the piano.

At the first meeting of the class in musical appreciation, next Tuesday afternoon (the Mozart Trio for piano, violin and viola will be played.

A new violoncello has been purchased for the conservatory and will be used for illustration in the classes in musical history and musical appreciation. Many applications have already been made for the latter class.

Mrs. Wilson sang at the opening chapel service at Illinois college last Wednesday morning the "Sancta Maria" of Faure. Mr. Kritch playing an obligato on the violin and Mr. Munger accompanying on the piano. The applause of the students was prolonged and enthusiastic.

## WHAT ABOUT YOUR CHILD.

And your musical instrument? You are expecting them to spend many precious hours together in the coming years. Why not prepare the child's understanding by training the senses of hearing, or sight, and touch, as applied to the music, systematically and separately, instead of clumsily employing all three from the first lesson?

The College of Music is prepared to do this work for your child in class work. The classes will meet early on Saturday afternoons. One year of this training will do more toward the musical development of your child than three years without it. The classes will be conducted by Miss Lula D. Hay, who received her training for this work at the Faelten School in Boston, Mass. Miss Hay will be glad to meet and consult with mothers who are interested in recital hall, College of Music, on Thursday, October 2nd, at 4:15 p. m. If you do not feel like sending your child at this time, come anyway; meet Miss Hay, hear what she has to say, and ask her questions. The class lessons cost \$5.00 for each student per half year.

GIRLS! THICKEN AND  
BEAUTIFY YOUR HAIR

Bring Back Its Gloss, Lustre, Charm and Get Rid of Dandruff—Try the Moist Cloth.

To be possessed of a head of heavy beautiful hair; soft, lustrous, fluffy, wavy and free from dandruff is merely a matter of using a little Danderline.

It is easy and inexpensive to have nice, soft hair and lots of it. Just get a 25 cent bottle of Knowlton's Danderline now—all drug stores recommend it—apply a little as directed and within ten minutes there will be an appearance of abundance; freshness, fluffiness and an incomparable gloss and lustre, and try as you will you cannot find a trace of dandruff or falling hair; but your real surprise will be after about two weeks' use, when you will see new hair—fine and downy at first—yes—but really new hair—sprouting out all over your scalp—Danderline is, we believe, the only sure hair grower; destroyer of dandruff and cure for itchy scalp and it never fails to stop falling hair at once.

A cloth with a little Danderline and soft your hair really is, moisten a cloth with a little Danderline and carefully draw it through your hair taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few moments—a delightful surprise awaits everyone who tries this.—Adv.

## PLAYS AND PLAYERS.

Frederick Wardle has written a book on "The Fools of Shakespeare." Ethel Levey is making an English provincial tour in "Hello, Ragtime." William Harcourt is the successor of Emmet Corrigan in "The Governor's Lady."

William A. Brady may produce later in the season a play by Thompson Buchanan.

Marie Tempest has a new English society play with the odd title of "Mary Goes First."

Manager Harry Askin of Chicago is negotiating with Fay Templeton for one of his new shows.

Bertha Malisch will appear the coming season in a new play under the management of F. C. Whitney.

Irene Franklin may join the ranks of the vaudeville stars who go on tour at the head of their own companies.

Frank Monroe has been engaged for an important part in "Shadowed," which is to be produced soon by James Forbes.

Charles J. Rose and Mabel Fenton will soon return to the vaudeville stage with a travesty of "Antony and Cleopatra."

The new opera by Victor Herbert is to be called "The Madcap Duchess." Glen Hall will be the leading tenor of the company.

David Bispham is to star in an opera by Leo Fall. He is at present filling a temporary engagement in vaudeville with good success.

Nora Bayes is said to have written several new songs and "created" a number of the most stunning gowns for her latest folderol feature.

Ethel Jones, a daughter of Henry Arthur Jones, the English dramatist, has just been engaged for the cast of "Romance," in which Doris Keane is starring.

Margaret Anglin, according to report, made a success in her performance of "Electra" at the Greek theatre of the University of California before an audience of nearly 10,000.

Jane Cowl, who is now starring in "Within the Law," will probably be seen after the holidays in a play based on an international marriage by Margaret Mayo, author of "Baby Mine."

Rachel Crothers has written a play called "The Rising Generation," which Joseph Brooks, in conjunction with Klaw & Erlanger, will produce, with Mabel and Edith Talfierro in the leading parts.

Andreas Dippel, former director of the Chicago Opera company, has abandoned for the present his plan of establishing a theatre for operettas in New York. He has settled in Vienna and intends to form an Italian opera company.

J. M. Wyckoff of Sullivan was calling on Jacksonville business men yesterday.

## CAMPAIGN TOUR IN AUTO.

Boston, Sept. 27.—Charles Sumner Bird, the Progressive candidate for governor of this state, is going to make a most vigorous campaign and has made all preparations to start on his campaign tour at noon on Monday of next week. The "Flying Squadron," as Mr. Bird's party will be named, will leave the state house on Monday and will continue in its activity until Monday, November 3, the day before election. Sundays are to be days of rest, but on week days, rain or shine, the schedule of the tour is to be carried out faithfully. Every evening Mr. Bird is to hold a rally in the city or town in which the "Flying Squadron" is passing the night. On many days, according to the schedule of the tour, the party will cover more than 100 miles and in many cases fifteen to eighteen short campaign speeches will be delivered in a day.

READY FOR DEER SEASON  
IN MAINE.

Pangor, Me., Sept. 27.—Hunters and would-be-hunters of the "bloody, amateur" description are peering into Maine to be ready for the opening of the shooting season for deer next Wednesday. According to reports from all sections of the hunting grounds deer are plentiful in Maine this year and it is estimated that more than 10,000 deer will fall victims to the ambitious nimrods. Deer abound particularly in the eastern and northern counties, but the best hunting grounds are around Moosehead Lake, the headwaters of the Penobscot and St. John, the counties of Hancock and Washington and in the Rangeley region.

Tackle Catarrh Now  
Be Free All Winter

Avoid Colds, Stall Pneumonia, Keep Your Nose Clear and Your Throat Free.

**Don't Wait Till You're All Bugged Up. Use S. S. S. Now.**

If you will go into any first class store and get a bottle of S. S. S. you are on the way to getting rid of Catarrh. But don't let anyone work off that old trick of something "Just as good."

S. S. S. is taken into the blood just as naturally as the most nourishing food. It spreads its influence over every organ in the body, comes through all the veins and arteries, enables all mucous surfaces to exchange inflammatory acids and other irritating substances for arterial elements that effectively cleanse the system and thus put an end to all catarrhal pollution. S. S. S. cleans out the stomach of mucous accumulations, enables only pure, blood-making materials to enter the intestines, combines with these food elements to enter the circulation, and in less than an hour is at work throughout the body in the process of purification.

The medicinal components of S. S. S. are relatively just as essential to well-balanced health as the nutritive properties of the grains, meats, sugars, and fats of foods. Any local irritating influence in the blood is rejected by the tissue cells and eliminated by reason of the stimulating influence of S. S. S.

You will soon realize its wonderful influence by the absence of headache, a decided clearing of the air passages, a steadily improved nasal condition, and a sense of bodily relief that proves how completely catarrh often infests the entire system.

You will find S. S. S. on sale at all drug stores. It is a remarkable remedy for any and all blood affections, such as eczema, rash, lupus, tetter, psoriasis, boils, and all other diseased conditions of the blood. For special advice on any blood disease write to The Swift Specific Co., 202 Swift Bldg., Atlanta, Ga.

Do not trifle with substitutes, imitations or any of the horde of "Just as good" Counterfeits of S. S. S.

NEWS FORECAST FOR THE COMING WEEK.

Washington, Sept. 27.—The American road congress will hold its third annual meeting at Detroit this week, beginning Monday and it is expected that the congress will be the largest and most important ever held in this country. A "good roads exhibition" will be held in connection with the meeting and the federal government has arranged for a fine exhibit.

The Perry Centennial, which has been held in various cities of this country during the past months will reach its conclusion with a big celebration at Louisville, Ky., ending next Sunday, which is the exact centennial anniversary of the battle of the Thames, the closing battle of the war of 1812.

One of the principal events in the world of sport will be the great international aviation race for the Gordon Bennett cup, which will take place near Rheims on Monday.

On Tuesday the Disciples of Christ will begin their international missionary convention at Toronto, Ont., which will continue for an entire week. It is expected that fully 5,000 delegates will be in attendance at the convention.

On the same day the 95th meeting of the National Association of Cotton Manufacturers will open at Atlantic City, N. J., for a session extending over three days. Many notable speakers will deliver addresses before the convention.

The much discussed banquet of the third international congress of refrigeration will take place in Chicago Tuesday evening and in accordance with the plans of the arrangements committee every bit of the food served at the banquet will be of the refrigerator type.

Tuesday is also the date for the special charter election in Minneapolis, Minn., for which a most strenuous campaign has been carried on for some time by the different parties.

The new federal game law, for the protection of migratory birds, will go into effect on Wednesday and the government has already distributed many thousands of copies of the law, which materially changes the time for the opening of the hunting season for aquatic birds.

Two religious conferences will open on Wednesday, the Rock River conference of the Methodist church, at Freeport, Ill., and the national convention of the Brotherhood of St. Andrews, in New York.

Twenty thousand Germans are expected to take part in the great "German Day" parade which will be the feature of the Ak-Sar-Ben celebration in Omaha, Neb., for Thursday.

Friday evening, the night before Col. Roosevelt sails for South America, he will be the guest of honor at a farewell dinner, which the Progressives of New York have arranged. It will be given at the New York roof garden and it is expected that 2,000 persons will be present.

On Saturday the centennial celebration of the German war of liberation will begin at St. Louis and the German government will be officially represented at the festivity, which will extend through several days.

THOMPSON REFUSES \$75,000 FOR MONSTER FISH

Has Been On Exhibition in Atlantic City—May Sell to a Corporation.

H. M. Doan and other Jacksonville people who have been at Miami, Florida, saw there the monster fish, which was captured by Capt. Thompson in the ocean not far from Miami. Recently Capt. Thompson has been exhibiting the fish at Atlantic City and a recent article in the Miami Metropolis says that he has refused an offer of \$75,000 for it. The paper quoted says:

"Though the total investment, including all expenses, is only a few hundred dollars, Captain Thompson, owner and exhibitor of the monster of the deep captured near Miami about fifteen months ago, is making interest on an investment of \$200,000 over and above all expenses, according to statements made to J. E. Junkin, recently returned from a tour of Europe, by the captain at Atlantic City a few days ago. Further Captain Thompson said that he had refused two offers of \$75,000 each for the big fish."

"Captain Thompson is drawing immense crowds each day," said Mr. Junkin. "The big fish is shown in a tent on one of the piers, and is quite an attraction. The captain is the ballyhoo and he hires a young man to stay inside the tent and explain the monster to the people. Incidentally, the captain is advertising Miami in good shape."

Mr. Junkin said that Captain Thompson is considering selling his fish to a corporation of which he would be a member, retaining a good share of the stock. As soon as the Atlantic City season closes the captain plans to take the big fish to Philadelphia for exhibition purposes.

EDUCATIONAL NOTES

Philadelphia provides free eyeglasses for nearly 2,500 school children every year.

Required home study has been abolished in the schools of Sacramento, Cal.

Five hundred and fifty-five persons attended the evening classes in academic subjects at the University of Cincinnati last year.

About \$15,000 is earned annually by the boys in the co-operative industrial course in the high school at Fitchburg, Mass.

After ten years of service a teacher in Schenectady, N. Y., may obtain a year's leave of absence for study or travel abroad, receiving one-third payment of salary.

A comparison of 620 star athletes of the Naval academy with 580 non-athletes in both cases from the classes of 1892-1911, shows that apparently the non-athletes are in better physical condition than the athletes.

Medical inspection is a business proposition. In a town with 250 children, it is said for instance, there would be an annual saving of \$5,250 if by thorough medical inspection the curable physical defects that handicap school children could be remedied.

There are about 40 "psychological clinics" in the United States, according to Dr. J. E. Wallin, of the University of Pittsburgh. The first of such clinics, for the purpose of studying and classifying mentally unusual children, was established at the University of Pennsylvania in 1896.

School officials in Beverly, Mass., recently calculated the money gain for their pupils in vocational education. They found that an expenditure of \$800 per boy in industrial training had raised the capitalization of the boy's economic value from \$5,000 to \$15,000 or \$18,000.

"We are destroying the eyes of a large number of school children by the burden of continuous near work to which they are subjected," says Dr. F. Park Lewis of Buffalo. He suggests as a remedy, in addition to the use of eyeglasses, reduction in the amount of work dependent directly upon the printed page. "Let us have more thinking and fewer books," he declares.

**DANGER SIGNALS TO WOMEN.** Is what one physician called backache, headache, nervousness and the blues. IF YOU SUFFER ANY STOMACH DISTRESS

You Should Take Mi-o-na Now—At Once—Its Action is Immediate—Safe—Effective.

When you feel nervous, irritable, tired and dizzy—when you have headaches, sour stomach, heartburn and pains in the colon and bowels—you suffer from indigestion—you need Mi-o-na at once.

Mi-o-na is a specific for stomach ills—it goes to the seat of your trouble and quickly and surely ends stomach misery. It builds up and strengthens the stomach walls and glands, improves quickly the digestive system and assists nature to properly digest the food, thus insuring health for the entire system.

Do not suffer another day. Get a 50 cent box of Mi-o-na Tablets at your nearest drug store—keep them with you constantly. They will help you get well and strong and immediate relief is sure. Do not delay—delays are dangerous and needless. If not benefited Mi-o-na costs nothing.—Adv.

WOMAN'S COLLEGE NOTES.

Work at Illinois Woman's college has been going on very smoothly, and everything is thoroughly organized in all departments. The various classes have been electing their officers. A full account of these officers will appear later.

The Athletic association has gotten things well started. The Archery club has been formed, one in basketball, one in tennis and the hiking organizations have been completed. Much interest is being manifested in all phases of athletic work. On Wednesday morning at the regular chapel hour, the editors and business managers of the College Greetings were introduced to the student body, and brief talks were made by the editor-in-chief and the business manager. The Athletic association had the chapel hour on Thursday morning.

Saturday night occurred one of the delightful features of the school year, which was the college sing, conducted by the three upper classes.

Miss Mildred West, who graduated in the class of 1911, has just been appointed to a very desirable

position as head of the modern language department of Westfield college at Westfield, Illinois.

The department of Home Economics is offering practical courses of advanced cookery for those interested. Full information may be had in regard to this course by applying to Miss Churton, head of the department.

Over thirty additional enrollments have come in the past week, most of them being in the College of Music.

The library has received this week from The American Book company, Silver, Burdett, Ginn and company, and Scott Foresman, forty volumes pertaining to public school music. This makes a valuable addition to our musical library. Rev. H. S. McKie also presented the library with a copy of Hitchcock's Analysis of the Bible and Matthew Simpson's Cyclopaedia of Methodism. We have added also during the summer one hundred volumes of bound magazines. This year we hope to obtain complete files of all magazines, indexed in the Reader's Guide to Periodical Literature for the past ten years.

Mr. and Mrs. Alfred Mason and child were in the city yesterday from Geneva.

SHRINERS START WITH NEW GOAT.

St. Paul, Minn., Sept. 27.—The members of the Osman Temple, Order of the Mystic Shrine, who recently returned from Panama, started from here today for Philadelphia, where they will conduct a ceremonial on October 1. The Shriners lost their goat in New Orleans, where the animal was held in quarantine and was not released until after the Shriners had left. The old goat is now in the keeping of the Dallas Shriners, while the members of Osman Temple procured a new goat, which accompanies them on their present trip.

THE GREAT RAYMOND IN ACTION

Miss Marie Dean, one of the pretty little assistants of the Great Raymond, has a unique souvenir that she prizes highly. It was during Mr. Raymond's last visit to Pekin, when at a banquet given him by the cousin of the late Emperor, Miss Dean was introduced to one of the Chinese emperors in gorgeous uniform and was presented in her suitors' name with an enormous basket of champagne.

In the center of the basket was a gold box, which when opened, she was astounded to find the pig-tail. But that was not all. In the box was a beautiful diamond sunburst containing thirty-two diamonds and attached to same was a note asking for her hand in marriage. Needless to say she refused his hand, but kept the sunburst.

Miss Ethel Danby, his other other charming assistant has in the course of her travels with Mr. Raymond, received over fifty proposals of marriage. One in particular was funny. It was during the company's stay in Siam, that Miss Danby received a proposal from a Cabinet Minister. Along with the offer was sent a baby elephant, with a small Siamese servant as attendant. Miss Danby was forced to take the elephant along with her on the steamer when she departed as it would have been a gross insult to have left it behind. Needless to say she disposed of it at the next stand.

Both these young ladies come from the best English families. Miss Dean is related to Lord Lonsdale. Mr. Raymond became acquainted with them at a private theatrical given by the Duke of Manchester and was interested in seeing them do a few tricks of magic. He induced them to take the present trip, more to see the world than anything else. Both young ladies are wealthy and are in love with their work and enchanted with their trip. This is their first visit to America.

The Great Raymond comes to the Grand Monday night for a week's engagement.

"For mercy's sake, Kate, your kitchen is cold as a barn!" "Yes, I know you have gas, but I would not take a dozen gas stoves for my

COLE'S PATENT High Oven Range

"I beg your pardon but it don't cost more. It costs me less to run it.

"My range heats both the dining room and kitchen.

"They are always cozy and warm and it cooks our meals at the same time.

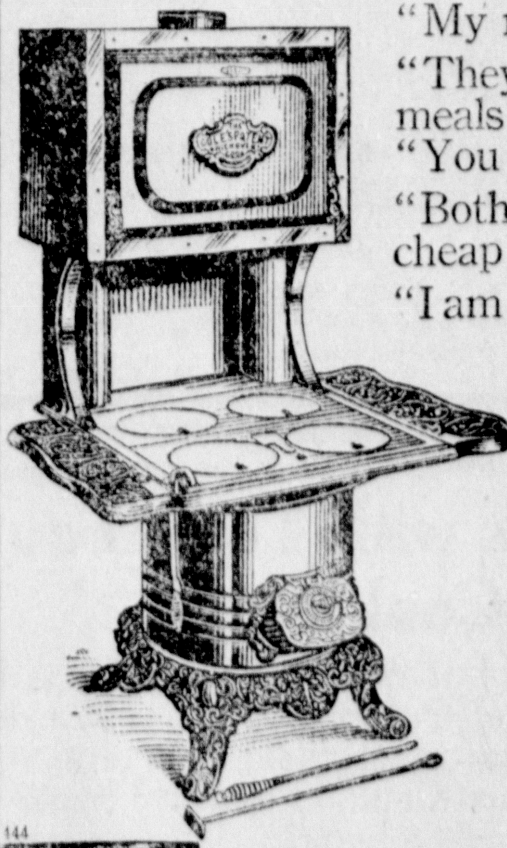

"You can't say that about yours.

"Both my heating and cooking are done with cheap fuels—either soft coal, slack or lignite.

"I am not saying anything about how my oven saves my back or how easy it is to control the draft or how quickly the stove and oven heat. But just in comfort and economy I have the best of you.

"If I were you, I would get one today. It takes up but half the space of an ordinary range and gives you two stoves in one.

"Then you will have real comfort and be saving money, too."

**A STRONG REFERENCE.**  
A young man recently applied for  
a position with a large printing  
house, and not having a letter of  
reference, offered his bank book. It  
showed a regularity of entries of de-  
posit. It was a very strong recom-

## THE WORLD'S LATEST FINANCIAL AND MARKET NEWS

### TRADING LIGHT ON STOCK MARKET

MARKET SAGS SLIGHTLY AT THE  
OPENING.

Decline is Largely Due to Lack of  
Interest—Early Losses Are Made  
Up in Some Cases—Bank State-  
ment Proves Disappointing.

(By Associated Press)  
New York, Sept. 27.—With the ex-  
ception of Reading and Union Pa-  
cific, each of which made gains of  
about a point, the stock market closed  
today with prices of the active  
stocks little altered.

Trade was light and at the opening  
the market sagged slightly. The de-  
cline was due less to pressure than  
to lack of interest. Early losses  
were made up in most cases although  
another dip downward toward the  
close resulted in small net declines  
for many of the leaders.

Strength of Reading and Union Pa-  
cific exerted little influence else-  
where, butish operations in these  
stocks being productive of no mar-  
ket gossip, other than reiterated rum-  
ors of segregation plans. Although  
official information was still lack-  
ing regarding Union Pacific's plans  
for disposition of proceeds of its sale  
of Southern Pacific stock, the report  
was current that some announcement  
would be made within a few days.

Union Pacific rose to the highest  
quotation of the present movement.  
The bank statement made a disap-  
pointing showing. Instead of the ex-  
pected gain in cash of \$8,000,000,  
the increase was only \$2,250,000.  
There was an actual loan expansion  
of about \$8,000,000 and the surplus  
was virtually unchanged.

formation or show the land before the  
day of sale. Telephone or write  
Fred Laddage, Auburn, Ill., who will  
arrange to show the land.

WM. BARRETT RIDGELY

LETTER FROM BERLIN.  
(By Associated Press)

A remarkable wave of crime has swept over Berlin in the past fortnight, causing one of the newspapers to comment that "Berlin can now compete as the seat of bloody crimes with darkest New York." There has been a murder for nearly every day during that period, in addition to several unsuccessful attempts to commit murder.

The crimes took various forms. A house owner shot a tenant who was moving out. The owner of a hotel of loose reputation killed an indignant father who came to complain of happenings in the house. Two women of the working classes were killed by their paramours. A deceived husband shot down his rival. A man murdered his aged wife with an axe while she slept. An employee of a bathing establishment killed the owner after a quarrel about losses on horse races. A seamstress was enticed into the woods by a bogus matrimonial agent and murdered. Still another man tried to end the lives of himself, a wife and a grown daughter by turning on the gas at night.

Murders have become so frequent that the theory of the petty crime of crime has been advanced to account for them. A Berlin newspaper editorially questions whether the city is not growing permanently more criminal, but finds some comfort in the fact that a majority of the murders were crimes of passion, rather than premeditated ones. It suggests that the hot wave that passed over Berlin about the end of August and the early part of September caused this remarkable increase in crime, and that men give way to passion more readily in hot weather than in days of moderate temperature.

Statistics showing the great increase in infant mortality during periods of extreme heat, published by Dr. Liefmann, chief bacteriologist at one of the great municipal hospitals, in the latest number of the German Medical Weekly, disprove the popular reference to women as the "weaker sex," so far at least as their early life is concerned. Dr. Liefmann found that when the death rate for nursing babies suddenly jumped during a typical heat wave early this summer, the sexes were not equally affected, the death rate for boys being almost double that for girls. The figures were 182 deaths of boys to every 100 of girl babies. Dr. Liefmann states that this percentage is maintained in deaths from other causes and that boy babies succumb to ailments of all sorts more readily than girls.

The same ratio has been noted in other heated periods and there is no doubt, according to Dr. Liefmann, that on scorching days boy babies are taken ill more acutely and in greater numbers than girls. Long continued heat waves, however, gradually increase the mortality percentages among female babies and equalize the proportionate mortality of the sexes.

The sword, the soldier's proverbial weapon since the days of history, seems on the way to disappearance in the German army. The six cavalry regiments provided for by the army increase law, passed this year, will be without sabres, being armed instead with carbines equipped with the short infantry bayonet. The change is made experimentally, but cause much headbanging among old line cavalrymen, for it is recognized that the experiment if successful may lead to its general adoption in the cavalry. With infantry officers now dispensing with the sword in actual warfare, to make themselves less conspicuous to opposing sharpshooters, and cavalry going into action with rifle and bayonet, poetical references to the sword of battle may have to be revised.

A German tax expert has found a curious and amusing loophole in the new armament taxation bills, by which a taxpayer, by reporting a greater amount of property for taxation than he possesses may pay less taxes than if assessed on the correct amount. The paradox is due to the fact that the new features combine a direct property tax with a higher increment tax and can be taken advantage of only by a taxpayer who has reason to expect a steady increase in the value of his property. If he discounts this and returns his property next January at the figure which he expects it will reach in 1917, when the increment tax becomes effective, he will, it is true, pay a higher direct tax but save the amount of the increment tax, which on moderate properties is 75 per cent of the increase as against the direct tax rate of from 15 to 35 per cent.

The government, faced with the possibility of this curious form of tax dodging, has been forced to announce semi-officially that persons returning their property for assessment at an excessive figure will be subjected to the same penalties of imprisonment and fine as those returning too little.

Dr. Heinz Potthoff of Dusseldorf, who found this important loophole in the law illustrates it with the following example: A man's property valued at \$7,500, which he increases each year through savings and labor by \$1,250. If he is assessed in 1914 for \$7,500 and in 1917 for \$11,250, his taxes will amount to 15 per cent of \$7,500 and 75 per cent of the increase of \$3,750, amounting together to \$2,237. If, however, A gives his property valuation in 1914 as \$11,250, he will have to pay only 15 per cent of this during the next three years, amounting to \$1,687, and no tax for the succeeding period, since there is no increment. He therefore saves \$550 by giving the higher valuation.

The saving is relatively smaller in the case of large properties. If A has property worth \$37,500, which he increases each year by \$2,500, his taxes for the six years under a proper valuation would amount to \$181.25. If he has property valued in the beginning at \$42,500, his taxes will amount to only \$150, showing a saving of \$31.25.

ROAD OFFICIALS WILL WORK  
TO BETTER CONDITIONS

Organization Was Formed Saturday and Will Meet Monthly—Resolution Adopted Endorses Tice Bill.

The road district commissioners and clerks of Morgan county affected an organization Saturday afternoon when they held a meeting at the court house for that purpose. There was a large representation of the road officials of the county and the purpose of the organization was declared in Morgan county. A resolution endorsing the Tice road bill and pledging support to an effort to secure hard roads for Morgan county. Richard Leake was chosen chairman of the organization; C. M. Strawn, secretary, and A. L. French, treasurer.

The officials did not spend a great deal of time in discussing road affairs at this meeting although it was stated that it is the purpose of the organization to improve the highways of the county by taking concerted action in improvements. Looking towards the exchange of problems and common interest the organization will meet regularly at 12:30 o'clock noon at the court house on the first Saturday in each month. It is expected that every road official in the county will become a member of the organization and will take part in its deliberation and action. The membership fee will be but 50 cents. It is the intention to join a state organization of road commissioners which will be made up of the organizations now forming in the several counties of the state.

**Resolution Favoring Tice Bill.**  
The resolution endorsing the Tice road bill was couched in the following language and was introduced by A. L. French:

Whereas, the 48th general assembly enacted a law entitled, An act to revise the law in relation to roads and bridges, commonly known as "The Tice Good Roads Law," providing for a system of state aid hard roads in Illinois and for a uniform improvement of the roads of the state. Therefore, be it

Resolved, that the highway commissioners of Morgan county, in convention assembled, do hereby endorse the provisions of said law and hereby express our approval and hearty appreciation of the same, and be it further

Resolved, that we hereby approve and endorse the action of the board of county commissioners of Morgan county in taking the necessary steps to secure for Morgan county as soon as possible all the state aid possible to be had for the purpose of constructing hard roads in Morgan county, and be it

Resolved, that we hereby pledge ourselves to aid and support the county commissioners of this county in every way possible in their efforts to secure hard roads for this county and the general betterment of all roads in the county.

**Officials Present.**  
The following were present at the meeting Saturday: C. M. Strawn, Guy Bender and John Snyder, Alexander; Otto Spiess, H. S. Birch, Moses Seymour and A. M. Calhoun, Franklin; J. M. Moore and L. B. Trotter, Sinclair; J. E. Kennedy, Arcadia; John M. Stice, Prentice; Frank Wigenjost, Pisgah; A. L. French, Chapin; C. S. Magill, Arnold; Richard Leake, Ed Stanley, H. C. Lippert, Herman Burmeister and G. S. Smith.

**ATTENDING CONFERENCES.**  
Rev. E. B. Houck, field agent for Illinois Woman's college, left yesterday for Murphysboro where he will attend the sessions of the Southern Illinois M. E. Conference. Thence he will go to Trenton, Mo., to attend the Missouri conference and subsequently to Freeport, Ill., for the sessions of the Rock River conference. The past week Rev. Mr. Houck spent at Rushville, Ind., Canton, O., and some other cities in Ohio and Indiana.

**THE TEMPERATURES.**  
The temperatures for Saturday, according to G. H. Hall, weather observer at Alexander, were: maximum 69, minimum 35.

**THE BIRTH RECORD.**  
Relatives of this city have received word that Mr. and Mrs. Fred Wassel of Springfield are the happy parents of a nine pound son, James Lewis. Mrs. Wassel was Miss Mae Hagle formerly of this city.

## ILLINOIS COLLEGE NOTES.

On account of large registration in the college it has been found necessary to make provision for additional assistance on the teaching staff. Miss Eleanor Capps, who last year held the position of assistant in German, has been appointed an instructor in German and English.

Sixty-seven students are registered in the class in freshman English. This has made it necessary for the class to meet in the chapel. The class will soon be divided into two sections, so that the work may be more effectively done. Nearly the same number of students are registered for freshman mathematics, and similar provisions will have to be made for the work in that course.

Any students in town who contemplate taking work in any of the departments of the college are urged to register at once. Although in some of the departments work may begin at any time, it is always a decided advantage to commence work at the beginning of the school year. The Reverend Mr. Dorgan spoke at the chapel exercises Friday morning, extending to the men of the college an invitation to attend the tent meeting Sunday afternoon. Reverend Mr. Spooner offered prayer at the Friday chapel service.

The College Y. W. C. A. will give a reception in honor of the new girls at the president's home, Monday afternoon at 3:30. The girls of all departments of the institution are cordially invited.

The Y. M. C. A. gave its reception to the new men of the college and academy on Friday evening.

More rooms are taken at Academy hall than has been the case at any time since the college became co-educational.

Mrs. Wilson's solo at the opening chapel service was greatly enjoyed by the large audience that filled every available seat in the chapel.

**THOMPSON-VAN ALLEN WEDDING.**  
London, Sept. 27.—An event of especial interest to the large American colony in this city and in which native society circles also display considerable interest, will be the marriage tomorrow of Miss Mary Van Allen, a granddaughter of the late Mrs. William Astor, and niece of the late John Jacob Astor, who met his death in 1912, when he went down with the Titanic, to Griswold Thompson, who comes from a wealthy and distinguished English family.

**BUSINESS FOR SALE.**  
My whole time being taken up with other duties, I have decided to offer my cigar factory and business for sale. If interested, call at circuit clerk's office.

Eugene D. Pratt.

**WILL GIVE READING.**  
Miss Frances English will give a reading for the pupils of the School for the Blind this afternoon at 4 o'clock in the school chapel.

Fashion Decrees -  
False Hair Must GO

Fashion's decrees are frequently of an uncompromising nature, and yet we all bow to her mandates with humility.

The late reaction to plain styles in hair dressing is decidedly gratifying to almost everyone. The prevailing idea seems to be simplicity, coolness and comfort.

The uncomfortable masses of germ harboring false hair and rats are, when possible, being cast aside, and the woman who cares to be strictly up to date, is relying upon her own natural hair for adornment.

This means that more painstaking care must be exerted in saving one's own hair and in enhancing its beauty.

## Newbro's Herpicide

Long, thick, luxuriant hair is merely a question of care and cultivation. If your scalp itches, and the hair is dull, brittle, uneven and coming out with every combing, it is because its life is being destroyed by the presence of dandruff.

Such a condition demands the regular and intelligent use of Newbro's Herpicide. The best informed and most fastidious people everywhere are aware of this and rely upon the world's best known scalp prophylactic to keep the scalp free from dandruff and to give to the hair that life, lustre and luxuriance which are so beautiful.

The odor of HERPICIDE is exquisite, the sensation of coolness and cleanliness a delight and the visible results are frequently astonishing.

## HAD A FINE TRIP.

Mr. and Mrs. J. S. Sheppard returned from Boston, to which place they went to place their daughter, Miss Edna, in a musical college. This was Mr. Sheppard's first experience east of Buffalo and he surely took in a lot of what was worth seeing along the east coast.

First of all, the Sheppards came down from Boston by steamer, on the ocean—not the Sound line. Then they took in New York City from Ellis Island to Central Park and saw the Bowery and Wall street and the place where the immigrant arrives, and the Park and a part of the Metropolitan Museum. They of course took in many other things that were worth while, but this gives some idea, to one who has been here, of the intelligent and interesting manner in which they enjoyed "The Effete East," as Brete Harte called it.

A SPECIAL SALE THIS COMING WEEK IN OUR SHORT WAIST DEPARTMENT.

## ARRANGEMENTS MADE FOR MUSIC IN VARIOUS CHURCHES

Best Talents of City Will be Heard by Congregations During the Current Year.

Several of the churches of the city have already arranged for their music and singers for the coming year, others will do so within a few days so it is expected that by next Sunday all plans will have been perfected. Jacksonville has ever been noted for its musical talents and the majority of the best singers and players affiliate themselves with some church. The following will be the arrangements of the churches for the coming year.

### Grace M. E. Church.

Grace church will continue to have its choir as last year under the direction of M. L. Swarthout with Donald Swarthout as organist. The quartet will be composed of Mrs. H. C. Woltman, soprano; Miss Lena Hopper, alto; Percy Jenkinson, tenor and A. Gore, basso. The quartet will sing in the morning and will augment the choir in the evening.

### German Lutheran Church.

Mrs. Robert Stice will be the soloist at the German Lutheran church. They will have their usual choir both morning and evening. The organist is William Bertram.

### Congregational Church.

Mrs. E. F. Bullard will be the organist at the Congregational church and the soloist and leader of the Congregational singing will be Mrs. Genevieve Clark Wilson, the new instructor of voice at the Conservatory of Music.

### Church of Our Savior.

The organist at the Church of Our Savior is Hyacinth DeJean.

### First Baptist Church.

The First Baptist church will have a chorus under the leadership of Mrs. Lucy D. Kolp, who will also act as organist. Other vocal music such as duets and quartets will be arranged for from time to time.

### Northminster Church.

The chorus choir at Northminster church will be under the leadership of Edward Marks. Mrs. Grace Franks Ferreira will be the organist. The chorus choir will be augmented by a male quartet composed of Edward Marks, Frank Braacewell, Edward Nunes and Ureil Gouveia.

### Brooklyn M. E. Church.

Brooklyn M. E. church will have a choir during the coming year with Mrs. J. W. Moon as leader. From the chorus can be picked voices to make a quartet, duets and trio of ladies' voices, soloists. Miss Nina Wright is pianist. The Brooklyn music is in charge of an organization of which Roy Potter is president; Frank Bourn, secretary; Harry Clements, treasurer; assistant treasurers, Miss Bernice Hedding and Frank Bourne. There is also a committee of two to look after new members.

### State Street Church.

The quartet at State Street church is complete except for the bass. The other members are Miss Mabel Matthews, soprano; Mrs. Percy Jenkinson, alto; John Johnson, tenor. Miss Inez Huckleby is organist.

### Westminster Church.

The soloist at Westminster Presbyterian church for the coming year is Miss E. Ainslie Moore, who will take charge next Sunday. At present they do not intend to have a quartet. Miss Rachel Jerauld will act as organist.

### Central Christian Church.

The chorus at the Central Christian church will again be under the leadership of J. Philip Read. Solos, quartets, and duets will be arranged as the leader sees fit. Miss Alice Mathis will continue her work as organist.

### Centenary M. E. Church.

All the musical arrangements at Centenary are yet incomplete and it is expected that later on a quartet may sing permanently. The large chorus choir is now conducted by Miss Clara Ransom. The organist is Miss Myrtle Larimore.

### Trinity Episcopal Church.

Musical arrangements have not been perfected at Trinity Episcopal church and probably will not be until the new pastor is known. The vested choir is furnishing the music now in charge of Miss Rose Bellatti.

### LAMBERTA TO BE RELEASED FROM JAIL ON BOND

Judge Thompson in Habeas Corpus Proceedings Makes Order Which Will Give Italian Relief—Bond Will Be \$10,000.

John Lamberto, Italian section foreman accused of killing an unknown negro at Yoemans, is to be released from jail when he provides a bond of \$10,000. Saturday Judge Thompson ordered the issuance of a writ of habeas corpus in accordance with the petition of Judge Layman and W. N. Hairgrove. When Lamberto appeared before the court, evidence was introduced to show that he had fired at the negro, whom he saw running from his premises, after being ordered to halt. It was maintained also that it was not proper to hold the defendant without bail solely on the coroner's warrant. Judge Thompson made an order whereby Lamberto can be released from jail when he presents a satisfactory bond of \$10,000. It is understood that he can furnish this bond.

### DE FREITAS IS ORDERED TO PAY HEAVY PENALTIES

Man Convicted on Three Counts of Selling Liquor is Given Fine and Jail Sentence.

Before Judge Brockhouse Saturday a motion for a new trial for Proctor DeFreitas, recently convicted of selling liquor in anti-saloons territory, was argued and the motion denied. Judge Brockhouse then passed sentence upon DeFreitas, fining him \$100 and giving him a thirty day jail sentence on each of the three counts under which he was found guilty. Workhouse mittimus was ordered to issue and the defendant was ordered committed to the county jail until fines and cost are paid.

In the argument for a new trial DeFreitas was represented by T. P. Smith, who maintained that his client was entitled to a new trial, because the court rejected some of the jury instructions presented by the defense. State's Attorney Tilton presented an argument to the court that the defendant had received a fair and impartial trial in accordance with law.

When it became evident that the new trial would be denied DeFreitas began to mumble complaints against Judge and lawyers and only the threat of a fine for contempt made him desist. He is now in jail and will be there until his attorney can prepare the record of the case and secure a writ of supersedeas from some judge of the appellate court.

**CROSS SIBERIA LINE INTO GREAT RUSSIAN EMPIRE.**

(Continued from Page Two)

his appetite had been fully satisfied he answered questions regarding those whom he had left at home. At many of the stations along the way there were booths for the sale of trinkets and souvenirs and a jumble of good stones would get some good bargains, as there were many beautiful for sale, in addition to curiously wrought iron articles, fancy stone objects and many other curious and unique things. The region is among the richest in minerals in the world. There are boundless deposits of iron ore, 95 per cent of the world's platinum is found here, while corphyry, jasper, malachite, gold, silver, mercury, copper, nickel, zinc, cobalt, coal and many different kinds of precious stones such as sapphire, emerald, beryl, chrysoberyl, tourmaline, and many others are here unearthed. To these mines the helpless convicts are sent and many a titled gentleman and woman may be found doing the most menial labor and possibly all because they said too much about liberty.

### GIRL WON PRIZE FOR THE WORK ON HIGHWAY IN IOWA

One Hundred Miles of Roads Dragged in Single Day in One Community—Plan Now Used Elsewhere.

Prover's Journal: A novel idea for the building of good roads comes from an Iowa community. Other Iowa communities have taken it up. There is no patent on the idea and any town is free to use it.

And it's a bully good idea too. A hundred miles of roads were improved in one day when it was first tried, and the experiment was worth while to every man and woman who contributed to its success.

A group of merchants offered prizes to farmers who worked on the roads all of one day. The shoe dealer offered two new pairs of shoes to the farmer who brought a drag from the greatest distance. The dry goods merchant gave a dress to the woman who baked the best cake for the occasion. The haberdasher gave two dozen pairs of socks to the man who had the best drag. The village banker gave a \$10 gold piece to the owner of the best team of horses.

**Up Before Sunrise.**  
One hundred and fifty drags worked the roads that day. One of the best was brought a distance of thirty miles by a girl 14 years old. She had to get up at 2 o'clock in the morning to be there on time. A woman with a baby drove fourteen miles. Coming and going, the workers traveled an aggregate of 1,751 miles.

What did the merchants get for their prizes? They got advertising in the first place, and in the second place, they made it easier for every farmer for miles around to trade at their stores. The plan succeeded so well it is surprising that more towns have not adopted it.
